MUNICIPAL EMPLOYEES REACHES OUT ON MANDELA DAY:

Various departments within the Langeberg Municipality reached out to the community in several ways for Mandela Day on Friday, 18 July. Municipal employees participated in contributing, in their private capacity, hot nutritional soup, bread and warm clothing amongst other things, to the residents of poor communities in the Langeberg area. Through this initiative the municipality hopes to inspire the Langeberg community to make every day a Mandela Day, to reach out to their fellow humans in a global movement towards a better world for all.

R79 million housing plan anticipated for McGregor

The anticipated housing project for McGregor is making good progress. The environmental authorisation was received from the competent authority, the Department of Environmental Affairs and Development Planning, on 2 July 2014.

The granting of this environmental authorisation is subject to compliance with certain conditions. Many specialised studies of heritage, visual impact, fresh water ecology, urban design, services and stormwater were undertaken.

The project is now at the stage where some statutory processes still need to be completed and this will determine whether there can be proceeded with the project.

What is the current progress of the project?

The advertising of the project is required in terms of the Land Use Planning Ordinance, No. 15 of 1985 (LUPO). Applications will be submitted, in terms of Section 17 and 24, for the following:

- The rezoning of Erf 360, McGregor from agricultural zone I to subdivisional area for residential, business, open space, authority and road purposes in terms of Sections 17(1) and 22(i)(a) of the Land Use Planning Ordinance, 1985 (Ord 15 of 1985).
- The subdivision of Erf 360 in terms

of Section 24 of the Land Use Planning Ordinance, 1985 (Ord 15 of 1985) to allow for the following:

- Residential zone I: 527 erven
- Business zone: one (1) erf
- Open space: one (1) erf
- Community zone: three (3) erven
- Special zone (urban agriculture): seven (7) erven
- Transport zone ii: roads one (1) erf

iii. Building Line Departures in terms of Section (15)(1)(i) of the Land Use Planning Ordinance, 1985 (Ord. 15 of 1985) to allow a lateral building line of 0 m for the lateral boundaries and a street building line of 2 m for the residential zone I erven.

It is anticipated that the preliminary site development plan will be advertised in the local newspaper during August 2014 for a 30 day commenting period. Surrounding land owners, ward committees, etc. will also be notified of this proposed housing project as well as certain provincial departments. Changes, if necessary, may be made to accommodate any comments received.

A report for council's consideration will then be compiled of this application. It is anticipated that a final decision in this regard will be taken before the end of this year.

What the housing development will comprise of

The housing projects on Erf nr 360, with a total footprint that covers approximately 17.4 ha comprising of 540 erven, proposed to be developed into:

- 258 Semi-detached double storey "walk up" units valued at R154 573 each.
- 238 semi-detached single storey units valued at R154 573 per house. 30 of these will be "special needs" units.
- 15 Gap housing

- 16 market-related housing erven
- 7 urban agricultural areas
- 3 community facilities
- 1 business
- 1 open space
- 1 road

The project is valued at R76 668 208, which will be a subsidy. The Langeberg Municipality will be responsible for the upgrading of the existing water and sanitation services infrastructure at an additional cost of R2,9 million.

The location of the project was preferred inter alia for the following reasons:

- The proposed layout provides for a greater number of erven and offers sufficient opportunities to meet the housing needs of McGregor.
- The proposed layout takes into consideration the potential impact on sense of place and surroundings of existing developments.
- The proposed layout allows the change in density and scale to be absorbed within the street and

- block structure of the town.
- Various housing typologies have been proposed in the layout to prevent a monotonous layout that detracts from the built character of McGregor.
- A mix of different land uses, such as residential, community facilities, open space and commercial use is provided, as well as allowing for urban agriculture.

The layout promotes a sense of integration and provides linkages to the historic town. The layout also accommodates the identified critical biodiversity area between the proposed development and the Hoeks River along the eastern boundary to build above the 1 in 100 year flood line and site, with sufficient area of the implement storm water management measures.

Taking into account the National Environmental Management Act (NEMA) principles, compliance with the conditions stipulated in this environmental authorization, and with the Environmental Management Plan, the competent authority was satisfied that the proposed listed activities will not conflict with the general objectives of integrated environmental management stipulated in Chapter 5 of the National Environmental Management Act, 1998 (Act No 1998). Any potential environmental impacts resulting from the listed activities can be mitigated to acceptable levels.

R79 miljard behuisingsplan verwag vir McGregor

Die verwagte behuisingsprojek vir McGregor vorder goed. Omgewingsmagtiging is op 2 Julie van die departement van omgewingsake en ontwikkelingsbeplanning ontvang.

Die toestaan van dié omgewingsmagtiging is onderworpe aan die voldoening aan sekere voorwaarde. Verskeie gespesialiseerde studies van erfenis, visuele impak, varswaterkologie, stedelike ontwerp, dienste en stormwater is gedoen.

Die projek is nou in die stadium waar sommige wetlike prosesse nog voltooi moet word wat sal bepaal of die projek kan voortgaan.

Hoe vorder die projek?

Die advertering van die projek word vereis in terme van die Ordonnansie op Grondgebruiksbeplanning (No.15 van 1985). Aansoek sal gedoen word in terme van Artikel 17 en 24 vir die volgende:

Die voorlopige Terreinontwikkelingsplan sal na verwagting gedurende Augustus vir 'n 30 dae kommentaartydperk in die plaaslike koerant adverteer word. Omliggende grondeienaars, wykskomitees ens., sowel as sekere provinsiale

departemente, sal van die voorgenome behuisingsprojek in kennis gestel word. Veranderings, indien nodig, sal gemaak word om enige kommentaar ontvang te akommodeer.

'n Verslag vir die raad se oorweging sal vir dié aansoek saamgestel word. 'n Finale besluit hiervoor sal na verwagting voor die einde van die jaar geneem word.

Waaruit die behuisingsontwikkeling sal bestaan

Die behuisingsprojekte op Erf no. 360, met 'n totale area van sowat 17,4 ha en bestaande uit 540 erwe, gaan na verwagting ontwikkel word in:

- 258 Dubbelverdieping skakeleenhede ter waarde van R154 573 elk.
- 238 Enkelverdieping skakeleenhede ter waarde van R154 573 per huis, waarvan dertig spesiale ordeensehede sal wees.
- 15 Oorbruggingseenhede
- 16 Markverwante behuisingserwe
- 7 Stedelike landbouareas
- 3 Gemeenskapsfasilitate
- 1 Onderneming

- 1 Oop ruimte
- 1 Pad

Die projek word gewaardeer op R76 668 208 wat gesubsidieer sal word. Die Langeberg-munisipaliteit sal verantwoordelik wees vir die opgradering van die bestaande water- en sanitêre dienste infrastruktuur teen 'n addisionele koste van R2,9 miljoen.

Die ligging van die projek is inter alia gekies om die volgende redes:

- Die voorgestelde uitleg maak voorseening vir 'n groter aantal erwe en bied voldoende geleentheid om te voorsien in die behuisingsnood in McGregor.
- Die voorgestelde uitleg neem die impak op bestaande omliggende eindomme in ag.
- Die voorgestelde uitleg laat toe dat die verandering in digtheid en skaal geabsorbeer word in die straat- en blokstruktuur van die dorp.
- Verskeie behuisingsstypes is voorgestel in die uitleg om 'n eentonge uitleg, wat afbreuk sal doen aan die boukarakter van McGregor, te verhoed.
- 'n Mengel van grondgebruiken, soos

residensiële, gemeenskapsfasilitate, oop ruimtes en kommersiële gebruik, is voorseen, en daar is ook voorseeing gemaak vir stedelike landbou.

Die uitleg bevorder 'n gevoel van integrasie en verskaf verbindings met die historiese dorp. Die uitleg akommodeer ook die geïdentifiseerde kritieke biodiversiteitsarea tussen die voorgestelde ontwikkeling en die Hoeksrivier langs die oostelike grens sodat daar bokant die 100-jaar-vloedlyn gebou kan word met genoeg ruimte om stormwaterbeheerraatels in plek te stel.

Met bepalings van die Nasionale Wet op Omgewingsbestuur in ag geneem, voldoening aan voorwaarde gestipuleer in dié omgewingsmagtiging en die Omgewingsbestuursplan, was die bevoegde gesag tevreden dat die voorgenome gelyste aktiwiteite nie botsend is met die algemene doelwitte soos gestipuleer in Hoofstuk 5 van die Nasionale Wet op Omgewingsbestuur, 1998, nie. Enige potensiële omgewingsimpak wat kan spruit uit die gelyste aktiwiteite kan tot aanvaarbare vlakte getemper word.

Eiendomswaardasies in Langeberg aan die gang

Die Langeberg-munisipaliteit is tans besig met 'n algemene waardasie van alle vaste eiendom binne sy munisipale grense. Dié waardasie word gedoen in terme van die Wet op Eiendomsbelasting (Wet No.6 van 2004) vir die waardasielys geldig vir 'n tydperk van vier jaar. Die huidige waardasielys is geldig tot 30 Junie 2015.

Die basis van die waardasie is op die beginsel van markwaarde soos voorgeskryf deur die wet op plaaslike regering, Munisipale Wet op Eiendomsbelasting, 2004. Dit is die waarde van die eiendom sou dit op die dag van waardasie (2 Julie 2014) op die ope mark deur 'n gewillige

verkoper aan 'n gewillige koper verkoop word.

Munisipale eiendomsbelasting

Die jaarlikse eiendomsbelastingkoers word bereken deur die munisipale waardasie van die eiendom te vermenigvuldig met die belastingtarief (sent in die rand) soos bepaal deur die raad gedurende die begrotingsproses. 'n Aansienlike toename in 'n eiendom se waarde kom nie noodwendig neer op 'n soortgelyke verhoging in eiendomsbelasting nie.

Valuers?

As 'n sekerheidsmaatreel wil die munisipaliteit die waardeerders en dataversamelaars aan die gemeenskap voorstel om te verseker dat onwettige betreders hulle nie as waardeerders of dataversamelaars voordoen nie.

Die firma Siyakhula Property Valuers is aangestel om alle vaste eiendom (landelik en stedelik) binne die Langeberg munisipale area te waardeer.

Alle waardeerders of dataversamelaars sal in besit wees van 'n gelamineerde ID-kaart wat hulle te alle tye by hulle moet hê. Die ID-kaart bevat 'n foto van die betrokke persoon sowel as die handtekening van die munisipale bestuurder. Hierdie individue kan tussen 07:30-19:00 op enige dag buiten 'n Sondag of publieke vakansiedag enige eiendom betree wat gewaardeer moet word. Alle eiendomme sal individueel besoek word.

Indien daar enige veranderings in personeel is met betrekking tot die waardeerders of dataversamelaars, sal dié veranderings bygevoeg word op die munisipale webtuiste en by alle munisipale kantore, sowel as die munisipaliteit se inbelsentrum. Lede van die gemeenskap is welkom om die sentrum te skakel om die besonderhede van waardeerders of dataversamelaars te bevestig.

Die munisipaliteit vertrou op die samewerking van elke lid van die gemeenskap om die projek suksesvol af te handel.

Wat sal die dataversamelaars en waardeerders doen?

Hulle sal omvattende inligting insamel om die markwaarde van jou eiendom vas te stel, soos byvoorbeeld:

- Die oppervlakte van die geboue.
- Die tipe konstruksie, kwaliteit en

toestand van die huis of gebou.

■ Waar die huis geleë is, soos byvoorbeeld langs 'n besige straat.

■ Die tipe uitsig.

■ Die aantal slaapkamers, leefareas en badkamers.

■ Of daar 'n swembad, oumawoonstel, motorhuis of tuin is.

■ Of die eiendom vir residensiële- of sakedoeleindes gebruik word.

Waardasie van landboueiendom

Die waardasie van eiendomme binne die munisipale area word tans gedoen met die doel om dit vanaf Julie 2015 te implementeer.

Eienaars van landboueiendomme word dus versoek om te help met die verifiëring van inligting soos onder aangedui. (Waardasies sal gebaseer word op die markwaarde van die eiendom, wat enige verbeterings aan die eiendom op die datum van waardasie (2 Julie 2014) insluit.)

Elke porsie van plase sal apart gewaardeer word ingevolge die Wet op Eiendomsbelasting, 2004.

Kategorieë vir die gebruik van belabare landboueiendom kan die volgende insluit:

- Landbougebruik
 - Ander kommersiële gebruik
 - Nie-kommersiële gebruik
- Siyakhula Property Valuers sal eienomme besoek om die volgende inligting te bekom:
- Die tipe grond en die benutting daarvan, byvoorbeeld bergagtige areas, weiding, bewerkbare areas, boorde (inclusief wingerde, appelkose, perskes ensovoorts).
 - Areas wat verbeteringe bevat (by-

voorbeld huise, kelders, store, werkershuise ensovoorts) sowel as 'n beskrywing van die aard en omvang daarvan.

■ Alle nie-landbou gebruik wat lei tot grondgebruik soos byvoorbeeld restaurante, B&B's of gastehuise, konferensiesfasilitate, kampterreine, plaasstalletjies ensovoorts.

■ Die ouderdom en kultivar van alle wingerde.

■ Alle inligting ten opsigte van beskikbare waterbronne, die hoeveelheid gelys by waterskemas, damme, boorgate en ander.

■ Die hoeveelheid besproeiingsgrond van elke area.

Daar word versoek dat bogenoemde inligting beskikbaar gemaak word wanneer die eiendom deur Siyakhula Property Valuers besoek word om te verseker dat 'n akkurate markwaarde van die landboueiendom bepaal kan word. Indien bogenoemde inligting nie beskikbaar gestel word nie, sal daar van alternatiewe maniere gebruik gemaak word om die waarde van die eiendom te bepaal.

Wat as ek as eienaar van die eiendom nie saamstem met die waarde wat die waardeerders aan die eiendom toegeken het nie?

Stel bestuurder van stadsbeplanning binne 30 dae van die ontvangs van jou waardasieresultate in kennis. Stappe tot appèl kan slegs geneem word ná beswaar aangeteken is.

Property valuations underway in Langeberg

Langeberg Municipality is currently conducting a General Valuation of all immovable properties within the municipal boundaries. This valuation is being done in terms of the Property Rates Act, 2004 (Act 6 of 2004) for the valuation roll valid for a period of four years. The current valuation roll is valid until 30 June 2015.

The basis of this valuation is on the principle of market value as prescribed in the Local Government, Municipal Property Rates Act, 2004. It is the value the property would have realised if sold on the date of valuation (2 July 2014) in the open market by a willing seller to a willing buyer.

Municipal property rates

The annual property rates are calculated by multiplying the market value of the property by the rate tariff (cent in the Rand) as determined by Council during the budget process. Substantial increase in property value will not necessarily result in similar escalation in rates account.

Who are the valuers or data collectors?

As a security precaution the municipality would like to introduce the valuers and data collectors to the community to ensure that illegal trespassers do

not present themselves as valuers or data collectors.

The firm Siyakhula Property Valuers has been appointed to value all immovable properties (rural and urban areas) within the Langeberg municipal area.

All valuers or data collectors will be in possession of a laminated ID card which they must have present at all times. The ID Card contains a photo of the relevant person and signature of the municipal manager.

Both valuers and data collectors will be issued with a photo identity card. These individuals may, between 07:30-19:00 on any day except a Sunday or public holiday, enter any property that must be valued. All properties will be individually visited.

Should there be any changes in personnel, with regards to valuers or data collectors, changes will be added to the website and all municipal offices, as well as the call centre. The public are welcome to call and confirm the details of valuers or data collectors.

The municipality relies on the cooperation of each member of the public to successfully complete the project.

What will data collectors and valuers do?

They will collect detailed information to help establish the market value of your property, such as:

- The area of the buildings.
- The type of construction, quality and condition of the house or building.
- Where the house is located, for example on a busy road.
- The type of view.
- The number of bedrooms, living areas and bathrooms.
- Whether there is a swimming pool, granny flat, garage or garden.
- Whether the property is used for business or residential purposes.

Valuation of agricultural properties

The valuation of properties within the municipal area is currently underway, with the intent to implement it from July 2015.

Owners of agricultural properties are therefore requested to assist with the verification of relevant information as indicated below.

Data Collectors from Siyakhula Property Valuers will visit all properties within the Langeberg Municipality from August 2014 to update the Valuation Roll. (A legal document that include all property values within the municipal borders, updated every 4 years.)

Property Rates are based on the property value determined by the municipal valuers and charged annually or could be billed monthly on the owners request.

The municipality is self-funding. The income from Property Rates are used to perform functions and municipal services from installing and maintaining roads, sidewalks, street lighting, storm drains, build and operate parks, recreational facilities, cemeteries, municipal administration, that benefit the community.

Each property owner will receive a notice that indicate the value of his/her property where after a owner has 30 days to lodge objections. The Valuation Roll will be available for viewing at all municipal offices and the website.

For more information regarding the valuation of your property, please contact the Manager: Town Planning, K Brand at 023 614 8000 or e-mail: kbrand@langeberg.gov.za.

of the agricultural property.

Should the above-mentioned information not be made available, alternative methods will be used to determine the value of your property.

What if I as the property owner disagree with the value the valuers have given my property?

Inform the manager of town planning within 30 days of receiving your valuation results. Only after an objection can the next step be taken to appeal.

Various government departments made their services available at the McGregor Church Hall on 27 June as part of the Thusong Mobile Centre Project.

The day was well attended by 330 residents of McGregor. Transport from the rural areas to the venue was provided to allow access to government services such as

information on SASSA allowances, housing, health tests, ID applications and much more. Residents usually had to travel long distances to access these services, but thanks to the project, which was

initiated by the Western Cape Department of Local Government, government information and services have been brought to the people of McGregor. The project saves residents time and money getting everything they need in one day at one location, adding value to the lives of the poor.
