## From the **MAYOR'S** pen

With Valentine's Day just behind us, February is the month of affection. May we share love and respect between us and our fellow men and women, especially our road users.

We have multiple upgrades and road works currently taking place in our region, from the McGregor RDP housing project

to the Cogmanskloof (Route 62) roadworks, not to mention the Bonnievale stormwater system upgrade.

We apologise for the inconvenience caused by the traffic delays of road closures and trucks on our roads, but this is all necessary for the new transitions to take place, and just think of the benefit

the new structures will bring.

Heavy-duty vehicles transporting building materials to McGregor have been allocated specific routes to ensure minimum disturbance to residents' daily operations.

The road re-surfacing in Bonnievale is now being finalised this month after

the upgrade of the stormwater system was completed.

The road between Ashton and Montagu will be closed most Tuesdays and Thursdays from 11:00 to 13:00, due to blasting demolition work.

This project will continue over the next three years and the N2 will be an alterna-

tive route.

We thank residents for their patience; their cooperation is much appreciated, especially in ensuring the safety of our road users.

Kind regards,  
**Executive Mayor**

Met Valentynsdag so pas agter die rug, is Februarie die maand van toegeneenthed.

Mag ons liefde en respek tussen ons en ons medemens bevoel, en veral ons padgebruikers.

Ons het verskeie opgraderings en padwerke wat tans in die streek plaasvind, van die McGregor HOP-huisprojek tot die Kogmanskloof (Roete 62) padwerke en die opgradering van die Bonnievale-stormwaterstelsel.

Ons vra om verskoning vir enige ongerief wat deur verkeersopsonthoude weens padsluitings en vragmotors op ons paaie veroorzaak word, maar al dié projekte is nodig vir vernuwing en veranderings om plaas te vind, en dink net aan die voordele wat die nuwe strukture sal meebring.

Swaar vragmotors wat boumateriaal na McGregor vervoer is spesifieke roetes toegeken om die minimum versturing van inwoners se daaglikse aktiwiteite te verseker. Die padopvervlakherstel in Bonnievale word dié maand gefinaliseer na die opgradering van die stormwaterstelsel voltooi is.

Die pad tussen Ashton en Montagu sal Dinsdae en Donderdae tussen 11:00 en 13:00 gesluit wees weens skietwerk. Dié projek sal die volgende drie jaar duur en die N2 sal dien as alternatiewe roete.

Ons bedank inwoners vir hul geduld. Hul samewerking word waardeer om die veiligheid van ons padgebruikers te verseker.

Vriendelike groete,  
**Uitvoerende burgemeester**

# Municipality's capital projects on schedule

There are a few capital projects that will be implemented across the Langeberg region this year, which will, to a certain degree, elevate the living experience within the area.

The main focus is on upgrading old infrastructure, improving service delivery and ensuring that basic services are not compromised.

Maynard Johnson, Manager: Civil Engineering Services at Langeberg Municipality, mentioned that the reconstruction of the three bridges will be undertaken this year. He explained that the funds, which amounts to R5 310 000, have already been received from Disaster Management.

After the completion of the environmental study, consulting engineers will be appointed to design the bridges after which tenders will be advertised for the construction of these bridges.

"The consultant has been appointed and is currently busy with an environmental study, before reconstruction can commence," said Johnson.

The construction of a roof transfer station in Ashton to the value of R10,89 million is already under way. The site was handed over early last month and is expected to be complete by the end of August.

Neil Albertyn, Manager: Project Management at Langeberg Municipality, said the community will draw a great deal of benefit from this project. "The station, which will be accessible to all residents, will operate more effectively in terms of managing solid waste. The station in Zolani is nearing its maximum capacity and if it wasn't for this project, the possibility that residents would have to drive to Worcester to dump solid waste was high," said Albertyn.

The upgrading of Montagu's wastewater treatment works, which is valued at R5 679 830, is progressing as planned and is expected to be

complete by August (2016).

Other projects we can look forward to:

#### COMMUNITY FACILITIES

Construction of a new public library in Ashbury (Montagu), valued at R4 million, is in the procurement phase, and it's expected that a contractor will be appointed and be on site in April. The project is expected to be complete by October this year. The community of Ward 12 and surrounding area will then have right of way to make use of this state-of-the-art library.

#### ROADS AND STORM WATER

The upgrades to the storm water system in Bonnievale (Phase 1), valued at R3,23 million, is nearing completion and will be complete by April this year.

#### SEWERAGE

R1 million worth of services have been installed at Uitsig. This project is complete. New sewerage tankers to the value of R800 000 have been pur-

chased.

#### WATER

Another large capital project includes the fencing of water and sewerage installations to the value of R1 million. This project will be finished in June.

Management has submitted its mid-year performance report to Council. This report reflects that we are well on track spending our capital projects budget so our communities can benefit meaningfully.

# Munisipaliteit se kapitaalprojekte op skedule

Die hoofokus is op die opgradering van ou infrastruktuur, verbetering van dienslewering en om te verseker dat basiese dienste nie in die proses ly nie.

Maynard Johnson, bestuurder van siviele ingenieursdienste by die Langeberg Munisipaliteit, het genoem dat die herkonstruksie van die drie brûe vanjaar ondernem sal word. Hy het verduidelik dat die benodigde finansiering, R5 310 000, reeds van Rampbestuur ontvang is.

Na die voltooiing van die omgewingstudies sal raadgewende ingenieurs aangestel word om die brûe te ontwerp. Daarna sal tenders vir die konstruksie van die brûe geadverteer word.

"Die konsultant is aangestel en tans besig met die omgewingstudie, voor rekonstruksie kan begin," het Johnson gesê.

Die konstruksie van 'n oordragstasie in Ashton ter waarde van R10,89 miljoen is reeds aan die gang. Die perseel is verlede maand oorhandig en sal na verwagting aan die einde van Augustus voltooi wees.

Neil Albertyn, bestuurder van projekbestuur by die Langeberg Munisipaliteit, het gesê die gemeenskap sal baie baat by hierdie projek. "Die stasie,

wat vir alle inwoners toeganklik sal wees, sal meer doeltreffend funksioneer ten opsigte van die bestuur van vaste afval. Die stasie in Zolani is naby sy maksimum kapasiteit en as dit nie vir hierdie projek was nie, was die kans groot dat inwoners Worcester toe sou moes ry om vaste afval te stort," het Albertyn gesê.

Die opgradering van Montagu se riosuiweringswerke, wat geraam word op R5 679 830, vorder volgens plan en sal na verwagting teen Augustus vanjaar voltooi wees.

# Survey to be done on ward committees and public participation processes

**The Department of Local Government will, for the first time, be conducting a survey to determine and measure the effectiveness of ward committees functioning in their specific wards.**

The survey will also determine what the level of involvement from the community is in the public participa-

tion process.

Certain wards within the Langeberg region will form part of the survey, namely Ward 3, 5, 7 and 10.

A team of locally recruited field-workers will be conducting a door-to-door household survey whereby they will ask residents to complete an electronic questionnaire. The survey,

which entails interviews, will measure the knowledge residents have of the ward participatory system, their attitudes toward participatory democracy and will also include demographic and socio-economic questions.

Some of the objectives of the assessment are as follows:

- Contributions that ward com-

mittees have made in municipal decision-making processes, and in the improvement of the lives of residents.

- The extent to which citizens are informed about ward committees, their roles and responsibilities and the importance of their active participation in local government activities.

- Success and shortcomings

with regard to ward committee functionality and municipal public participation processes.

Langeberg Municipality will inform residents as to when the survey will commence via various communication platforms such as Facebook, Twitter, the municipal website, notices and SMSes.

## Local entrepreneur receives R250 000 from government

**A local entrepreneur from Ashton in the Langeberg region recently received state-of-the-art sewing equipment to the value of R250 000 from the Department of Rural Development and Land Reform (DRDLR), with the aim of boosting her business.**

The machinery was officially handed over late last month in Ashton.

Portia Johnson (33), the owner of PJ's Arts and Crafts in Ashton, has been battling to grow her business for the past two years, and was struggling to penetrate certain local markets because of a lack of resources and staff.

Her core business includes needlework projects, screenprinting, making clothes, track-suits and school uniforms, and embroidering logos on clothing and other items.

Johnson explains she was one of the beneficiaries of the National Rural Youth Service Corps (NARYSEC).

The corps' main goal is to recruit and develop rural youth, and to perform community service in their communities. After seeking assistance from the DRDLR to improve her business, a representative came to visit her in Ashton for a due-diligence investigation.

Lungelo George, project coordinator

for Rural Enterprise and Industrial Development (REID) under the umbrella of DRDLR, said the Department decided to donate the advanced machinery to give Johnson's business the boost it needed to flourish.

"Her business was already in operation by the time we met," George said. "Johnson has proved to us that she has a clientele and there are markets she could penetrate if she had the resources available. This is why we decided to give her the help she needed. We saw the potential in her and her business model."

"We would like to see her, in due course, employ at least five people on a permanent basis."

We also want to see her give back to her community through skills development programmes for the local youth in the area. When she is completely established, she should tap into international markets."

The sewing equipment includes:

- Two industrial plain machines complete with table stand and motor (x2)
- Ten Mundail scissors (x10)
- One industrial button hole machine complete table stand and motor (x1)
- Uniform
- Tang 12 Colour 1 Head Computer-

ised Embroidery Machine (x1)

- Laptop
- Two Industrial Thread Safety Over-head locker complete table stand and motor

- Material/Fabric/Uniforms

Johnson's two main challenges were a lack of material and old sewing machines.

When the machinery was delivered, she was overcome with emotion. "We were really struggling before receiving assistance," Johnson pointed out. "Lungelo George and his department were like angels sent from God."

"Thank you to you and your entire team for making this possible."

"Thank you Langeberg Municipality and everyone else who had a hand in assisting my business."

Dave van Schalkwyk, Manager: Social Development at Langeberg Municipality, said that assisting one business in Langeberg is a win for the entire area because it means job creation, economic growth and skills development.

"It is a privilege to receive a donation for your business no matter how big or small, but it is now in your hands to turn it into a little gold mine," concluded Van Schalkwyk.

## R250 000-skenking gee plaaslike entrepreneur 'n hupstoot

'n Plaaslike entrepreneur van Ashton in die Langeberg-streek het onlangs hipermoderne naaldwerktoerusting ter waarde van R250 000 van die departement van landelike ontwikkeling en grondhervorming ontvang in die hoop dat dit haar onderneming 'n hupstoot sal gee.

Die toerusting is laat verlede maand oorhandig.

Portia Johnson (33), die eienaar van PJ's Arts and Crafts in Ashton, spartel, weens 'n gebrek aan hulpbronne en personeel, al die afgelope twee jaar om haar onderneming te laat groei en sekere plaaslike markte te penetreer.

Johnson se kernbesigheid sluit naaldwerkprojekte, skermduirkwerk, sweetpakke en skooluniforms en die borduur van logo's op klere en ander items in.

Volgens Johnson was sy een van die begunstigdes van die Nasionale Landelike Jeugdienskorps (NLJK). Die korps se hoofdoel is om jongmense in landelike gebiede te werf en ontwikkel om gemeenskapsdiens in hul onderskeie gemeenskappe te lever. Ná sy die departement van landelike ontwikkeling en grondhervorming (DLOG) om hulp genader het, het 'n verteenwoordiger haar in Ashton besoek vir 'n kontroleondersoek.

Lungelo George, projekkoördineerder vir landelike ondernemings- en -nywerheidsontwikkeling, onder die vaandel van die DLOG, sê die departement het besluit om moderne masjinerie aan Johnson te skenk om só haar onderneming die hupstoot te gee om dit te laat floreer.

"Haar onderneming was reeds operasioneel toe ons haar ontmoet het. Johnson het aan ons

bewys dat sy kliënte en markte het wat sy sal kan binnedring indien sy die nodige hulpbronne het. Ons het die potensiaal in haar sakeplan gesien.

"Ons sal graag wil sien dat sy, met verloop van tyd, minstens vyf mense permanent in diens neem. Ons wil ook sien dat sy terugploeg in die gemeenskap deur vaardigheidsontwikkelingsprogramme vir plaaslike jongmense. Wanneer sy behoorlik gevestig is, behoort sy die internasionale mark te betree," sê George.

Die naaldwerktoerusting sluit in:

- Twee volledige industriële naaimasjiene met staander en motor (x2)
- Tien Mundail skére (x10)
- Een volledige industriële knoopsgatmasjiene met tafelstaander en motor (x1)
- Uniform
- Een Tang kleur-, gerekenariseerde borduurmasjiene (x1)
- Skootrekenaar
- Twee industriële draad-omkapmasjiene met tafelstaander en motor (x2)
- Tekstiel, materiaal en uniforms

Johnson se twee hoofuitdagings was 'n gebrek aan materiaal en ou naaimasjiene.

Met die oorhandiging van die toerusting was sy oorstelp van vreugde. "Ons het regtig gesukkel voor ons hulp gekry het. Lungelo George en sy departement was soos engele van God. Dankie aan jou en jou hele span dat julle dit moontlik gemaak het. Dankie aan die Langeberg-munisipaliteit en al die ander wat hulp aan my onderneming verleen het," sê Johnson.

Dave van Schalkwyk, bestuurder van maatskap-

like ontwikkeling by die Langeberg-munisipaliteit, sê die hulp aan een onderneming in die Langeberg is tot voordeel van die hele area aangesien dit lei tot werkskepping, ekonomiese groei en vaardigheidsontwikkeling.

"Dis 'n voorreg om 'n bydrae tot jou onderneming te ontvang, maak nie saak hoe klein of groot nie, maar dit is nou in jou hande om dit 'n goudmyn te maak," het Van Schalkwyk bygevoeg.

It is important that treated water complies with the strict South African National Standards (SANS). Analysis reports are done monthly at these purification plants by an external service provider, the SANS accredited A.L. Abbot and Associates. The latest available report, compiled in January, breaks down the five towns' treated water results and shows the water to be safe according to the SANS 241 standards as indicated in this SANS certificate of analysis report.

Dit is belangrik dat die behandelde water voldoen aan die streng Suid-Afrikaanse Nasionale Standaarde (SANS). Ontledingsverslae word op 'n maandelikse basis by hierdie suiweringsaanlegte deur 'n eksterne diensverskaffer, die SANS-geakkrediteerde A.L. Abbot and Associates, gedoen. Die mees onlangse verslag, saamgestel in Januarie, gee 'n uiteensetting van die vyf dorpe se behandelde water en dui aan dat die water veilig is volgens die SANS 241-standaard, soos in die tabel hierbo.

# Zabalaza mini-festival builds excitement in Langeberg

"There's plenty of talent in Langeberg and the support we get is great. We will definitely be inviting some local acts to our main festival in Cape Town."

So says Thami Mbongo, professional actor and theatre developer for Zabalaza, the Rondebosch, Cape Town-based Baxter Theatre Centre's development programme. Mbongo facilitated several workshops and mentorship programmes in various towns in the Langeberg before the Baxter's mini-festival took place.

The Langeberg Municipality roped in Mbongo as a consultant, spending just over R40 000, to enhance the abilities of young, talented performing art groups. Following his input, the local groups were ready to roll. More than 200 spectators attended the Baxter's mini-festival, which took place on 16 January at the Nkqubela Hall. In search of entertainment, the large crowd of supporters were not disappointed after five

local drama, two hip-hop, two poetry and two dance groups performed on stage. The vibe in the building was electric and the judges were impressed.

Guest performances were done by Mr P, aka Phzo, of NakedMindz, Buntu Jobela of DSO and Mbongeni Nomkhonwana of the Lingua Franca Poetry Move-

ment. Groups from Worcester also performed.

Zabalaza runs an annual theatre festival every March. As part of the build-up to the main festival, the group hosts a number of community mini-festivals that take place in various communities.

"While in the Langeberg area we held poetry, hip-

hop and dance workshops in the various towns," Mbongo said, "we are spreading a message of hope to all aspiring artists who want to become professionals one day."

He added that more workshop and mentorship programmes are needed in Langeberg for the artists to develop. "Professionals need to come to this area more often to mentor local artists and equip with the necessary skills required to become leaders in this industry," he said.

When asked what the current challenges are for local artists in Langeberg, Mbongo replied: "There has to be an immediate follow-up programme to keep the excitement going for the artists. Now, these artists must take their performances to different places around this region, so people know there is talent here." The winners of the mini-festival will form part of Zabalaza's main festival, which will be held at the Baxter Theatre Centre from 11 to 19 March this year.

## Zabalaza-minifees bou opwinding in Langeberg

"Daar is baie talent in die Langeberg en die ondersteuning wat ons kry is wonderlik. Ons sal definitief van die plaaslike optredes na ons hooffees in Kaapstad nooi."

Só sê Thami Mbongo, professionele akteur en teaterontwikkelaar vir Zabalaza, die Baxter Teatersentrum in Rondebosch, Kaapstad se ontwikkelingsprogram. Mbongo het 'n aantal werksessies en mentorskaprogramme in etlike dorpe in die Langeberg gefasiliteer voor die Baxter se minifees plaasgevind het.

Die Langeberg Munisipaliteit het Mbongo se hulp as konsultant ingeroep, en daardeur net meer as R40 000 bestee om die vaardighede van die streek se jong, maar uiters talentvolle, uitvoerende kunstgroepe te ontwikkel. Na afloop van die werksessies was die plaaslike groepe gered vir aksie.

Meer as 200 konsertgangers het die Baxter se mini-

fees op 16 Januarie in die Nkqubela-gemeenskapsaal bygewoon. Die gehoor is nie teleurgestel nie met vyf plaaslike dramagroepe, twee hip-hop-, twee dig- en twee dansgroepes wat die beste voetjie voor gesit het. Die jong talent het vir 'n ongelooflike atmosfeer gesorg en beoordelaars by die geleenthed beïndruk.

Gasoptredes is deur Mr P oftewel Phzo van NakedMindz, Buntu Jobela van DSO en Mbongeni Nomkhonwana van Lingua Franca Poetry Movement gelewer, terwyl daar ook optredes deur groepe van Worcester was. Zabalaza is 'n Baxter Teatersentrum-ontwickelingsprogram wat jaarliks in Maart 'n teaterfees aangebied. As deel van die aanloop tot die hooffees word 'n reeks gemeenskapsminifeeste in verskillende gemeenskappe gehou. "Terwyl ons in die Langeberg-area was het ons hip-hop-, dans- en digwerkwerksessies in verskeie dorpe aangebied. Ons versprei 'n

boodskap van hoop aan alle jong kunstenaars wat hoop om een dag professioneel op te te word," sê Mbongo.

Meer werksessies en mentorskaprogramme is in die Langeberg nodig om kunstenaars te help ontwikkel, meen Mbongo. "Professionele kunstenaars moet meer gereeld na die area kom om plaaslike kunstenaars te mentor en met die nodige vaardighede toe te rus om leiers in dié bedryf te word."

Gevra oor huidige uitdagings vir kunstenaars in die Langeberg sê Mbongo daar moet 'n onmiddellike opvolgprogram wees om op die opwinding van die jong kunstenaars te bou. "Hierdie kunstenaars moet nou hul optredes na verskillende plekke in die streek neem sodat mense kan sien watter talent daar is."

Die wenners van die minifees sal deel vorm van Zabalaza se hooffees wat van 11-19 Maart by die Baxter Teatersentrum gehou word.
