A joy to be a woman!

The Langeberg Municipality hosted its annual Women's Day event on 9 August, not only to commemorate the 20 000 women who marched to the Union Buildings in Pretoria 60 years ago to protest against the then South African pass laws controlling the movement of African people within the country being extended to African women, but also to celebrate the women of the Langeberg region.

Approximately 300 women attended the event, which was held at the Callie de Wet Hall in Robertson.

The entire Langeberg area was represented on the day with women coming from all 12 wards. As the women arrived they were, as part of the opening ceremony, entertained by the Langeberg Steel Band. The event appropriately opened on a divine note, with a scripture reading by Amorel Abrahams.

A solo performance by Armando Baartman (Agri's Got Talent 2015 Winner) received a standing ovation with his song which expressed a message of encouragement to women to stand up for their rights.

The former Executive Mayor of Langeberg, Ms Diana Gagiano, spoke about her big leap into politics and the achievements she acquired along the way. Gagiano encouraged women to dream big, set goals and pursue them. She told the special audience, whatever their dreams may be, not to "hold back nor let circumstances stop you. Go for it all the way."

The Next Step Dance Company performed for the women, which made for enthralling entertainment. The group (girls-only) also recited an inspiring and heartfelt poem entitled "I am an African woman".

Leonard Macakati, a representative of the Commission for Gender Equality, informed the women about their human rights, focusing especially on gender equality.

He shared his wisdom on a range of topics, including the right not to be forced to dress a specific way, the right to work and contribute financially towards a household. Through this crucial right, he pointed out, women are able to establish themselves individually, as a household player, and fully as a member of her community.

Baartman ended the programme with a song dedicated to all women who passed away during the struggle for liberation and equality.

Spot prizes were handed out on the day, and those present were treated to refreshments and had an opportunity to mingle with other women of the Langeberg region.

■ National Women's Day, celebrated annually on 9 August, commemorates the 1956 women's march to the Union Buildings in Pretoria to petition against new amendments to the Pass Laws Act of 1952. This law had required African males over 16 to carry an internal passport, the maligned "dompas" or pass, outside "native reserves" designated for Africans, thus guaranteeing spatial apartheid, controlling urbanisation, and (very importantly) managing labour migration (particularly between the reserves and the South African towns and cities designated mainly for whites).

Dit is 'n vreugde om 'n vrou te wees

Die Langeberg-munisipaliteit het sy jaarlikse Vrouedaggeleentheid op 9 Augustus gehou, nie net om die 20 000 vroue wat na die Uniegeboue gemarsjeer het om teen die Suid-Afrikaanse paswette te protesteer te gedenk nie, maar ook om die vroue van die Langeberg te vier.

Ongeveer 300 vroue het die geleentheid bygewoon, wat in die Callie de Wet-saal op Robertson gehou is.

Die hele Langeberggebied is op die dag gedenk met vroue wat uit al 12 wyke gekom het. Soos die vroue gearriveer het, is hulle as deel van die openingseremonie vermaak deur die Langeberg Steel Band. Hierna het die geleentheid op 'n gepaste noot geopen met 'n Skriflesing deur Me Amorel Abrahams. 'n Solo-uitvoering deur Armando Baartman (Agri's got Talent 2015-wenner) het 'n staande toejuiging ontvang vir sy liedjie met 'n aanmoedigende boodskap vir vroue dat hulle vir hul regte moet opstaan.

Die vorige burgemeester van Langeberg-munisipaliteit, raadslid Diana Gagiano, het oor haar groot sprong na die politiek gepraat en dit wat sy op dié pad bereik het. Gagiano het vroue aangemoedig om groot te droom, doelwitte te stel en hulle na te jaag. Sy het aan die spesiale gehoor gesê dat wat ook al hulle drome is, "moenie terughou nie of dat omstandighede jou stop nie. Gaan daarvoor, al die pad".

Daarna het Next Step Dance Company vir die vroue opgetree en gesorg vir 'n bekorende ervaring. Die groep (slegs meisies) het ook 'n inspirerende gedig voorgedra, 'I am an African woman'.

Leonard Macakati, 'n verteenwoordiger van die Kommissie vir Gendergelykheid, het die vroue ingelig oor hulle menseregte, met 'n spesiale fokus op gendergelykheid.

Macakati het die vroue oor 'n hele reeks onderwerpe voorgelig, soos die reg om nie verplig te word om op 'n sekere manier aan te trek nie, die reg om te werk en ook om 'n rol te speel in 'n finansiële bydrae tot 'n huishouding. Op hierdie manier is vroue in staat om hul plek volledig vol te staan, individueel en binne 'n huishouding.

Baartman het die program afgesluit met 'n lied gewy aan al die vroue wat oorlede is in hulle stryd vir vryheid en gelykheid.

Pryse is op die dag uitgedeel en die vroue is op verversings getrakteer en het die geleentheid gehad om met ander vroue in die Langebergstreek te sosialiseer.

■ Nasionale Vrouedag is 'n Suid-Afrikaanse Openbare Vakansiedag en word jaarliks op 9 Augustus gevier. Die dag herdenk die 1956-optog van ongeveer 20 000 vroue na die Uniegeboue in Pretoria om te protesteer teen die land se paswette wat Suid-Afrikaners gedefinieer het as "swart" onder die Wet op Bevolkingsregistrasie en van hulle vereis het om 'n interne paspoort te dra, ook bekend as 'n pas, wat gedien het om bevolkingsegregasie te handhaaf, verstedeliking te beheer en trekarbeid te bestuur gedurende die apartheidstydperk.

Illegal dumping is a criminal offence

The Langeberg Municipality is urging residents to refrain from dumping waste illegally, as it has severe implications for the environment.

Illegal dumping, which often occurs on vacant land and other public open spaces, has increasingly become a major concern for the Municipality since costs for removing this waste has nearly reached the R1m mark.

The total cost of cleaning this waste over the last financial year (2015-2016) totalled R668 790,52.

Not only does this practice destroy plant and animal life, but it also contaminates the soil and our very limited water supply.

To correctly get rid of your waste, hold onto it until you find a legal way to dispose of it. Check to make sure that your waste is being taken to a legal location.

It is also advised that parents teach their children from a young age that littering is illegal. A clean neighbourhood makes everyone healthier and happier.

At present, incidents of illegal dumping in the Langeberg region are under-reported. Communities are encouraged to work with the local authority to ensure more incidents are reported.

We urge residents to take down the details of perpetrators and their vehicles, including registration numbers and, if possible, gather photographic evidence so we can prosecute those who dump illegally.

Langeberg Municipality's Law Enforcement Unit handles the legal aspects of fines and all criminal procedures related to illegal dumping. It operates in instances where a member of the public has details of, or can identify someone accused of dumping, responds when a vehicle is seen dumping, or acts when evidence indicating the source of dumped goods materialises.

The minimum fine for dumping or littering is R500, and can be as high as R2 500.

Residents can contact Langeberg Municipality's call centre on 0860 88 1111 to report illegal dumping.

Negative effects of illegal dumping:

- People and pets can be exposed to toxic material.
- Rodents and insects carry diseases from the waste into the surrounding community.
- Water, soil and air can become polluted.
- Neighbourhoods become eyesores and unpleasant to live in.
- Property values fall.
- Ratepayers have to pay for the clean-up.

Onwettige afvalstorting is 'n kriminele oortreding

Die Langeberg-munisipaliteit doen 'n ernstige beroep op inwoners om nie afval onwettig te stort nie, aangesien dit ernstige implikasies vir die omgewing het.

Hierdie onwettige storting van afvalmateriaal, wat dikwels op 'n oop stuk grond en ander openbare plekke geskied, raak toenemend 'n groot bron van kommer vir die munisipaliteit, aangesien die koste om hierdie afvalmateriaal te verwyder, bykans R1 m beloop.

Die totale koste verbonde aan die verwydering van hierdie afval gedurende die afgelope boekjaar (2015-'16) was R668 790,52.

Hierdie wanpraktyk vernietig nie slegs die plant- en dierelewe nie, maar besoedel die grond asook ons uiters beperkte watervoorraad.

Om op die korrekte manier ontslae te raak van die afval uit jou huis, is om dit bymekaar te hou totdat jy dit op 'n wettige manier kan verwyder. Maak seker dat al jou afval na wettige plekke geneem word.

Die raad aan ouers is dat hulle hul kinders van kleins af moet leer om afval nie sommer op enige plek te gooi nie, dis teen die wet. Onthou, 'n skoon buurt maak mense gelukkiger en gesonder.

Baie min insidente van onwettige storting in die Langeberg-streek word tans gerapporteer. Gemeenskappe word dus aangemoedig om saam met die plaaslike owerheid te werk om te verseker dat meer sulke insidente gerapporteer word.

Ons doen 'n beroep op die inwoners om die besonderhede van die oortreders en hul voertuie neer te skryf, insluitend die registrasienommers. Indien moontlik, probeer om fotografiese bewyse te verkry, sodat ons diegene wat hul afval onwettig stort, kan vervolg.

Die Langeberg-munisipaliteit se wetstoepassingseenheid hanteer die regsaspekte van boetes en alle kriminele prosedures verwant aan dié wanpraktyk. Die eenheid tree op wanneer 'n lid van die gemeenskap, byvoorbeeld, die besonderhede van die oortreder het, die persoon kan identifiseer, gesien word wanneer 'n voertuig afval onwettig stort, of as daar bewyse bestaan wat op die bron van die gestorte afvalmateriaal dui.

Die minimum boete vir onwettige afvalstorting is R500, maar kan tot soveel as R2 500 wees.

Inwoners kan die Langeberg-munisipaliteit se inbelsentrum by 0860 88 1111 skakel om onwettige storting te rapporteer.

Negatiewe invloede van onwettige storting:

- Mens en dier word aan gifstowwe blootgestel;
- Plaagdiere en insekte dra siektes van die afval tot in die omliggende gemeenskap;
- Die water, grond en lug word besoedel;
- Die buurte lyk slordig en lelik en is onaangenaam om in te woon;
- Die waarde van eiendomme daal; en
- Die belastingbetalers moet opdok en vir die skoonmaak betaal.

Breek die siklus en herwin

Die Langeberg-munisipaliteit spandeer jaarliks duisende rande om afvalmateriaal te verwerk wat weer gebruik of herwin kan word om ons omgewing te bewaar vir geslagte ná ons.

Die stortingsterrein in Ashton het byna sy maksimumkapasiteit bereik, daarom is daar 'n nuwe afvalterrein naby Worcester as beste alternatief geïdentifiseer.

Vir inwoners wat in die Langebergstreek bly, sal herwinning noodsaaklik word aangesien alle afvalstowwe na die streekterrein vervoer moet word. Daarom, om vervoerkostes so laag as moontlik te hou, doen ons 'n beroep op almal om saam te werk om soveel as moontlik afvalmateriaal te herwin.

Terloops, het jy geweet dat daar tot 40% van jou huishoudelike afval herwin kan word?

Wat is herwinning?

Herwinning verwys na die optel en verwerking van gebruikte materiaal waarna gewoonlik as "afval" verwys word. Hierdie materiaal word gesorteer en verwerk om weer as rou materiaal vir die produksie van nuwe produkte gebruik te word. Waar hergebruik die herhaaldelike gebruik van ou produkte beteken, word herwinde materiaal gebruik om nuwe produkte te vervaardig.

Hoekom is herwinning so belangrik?

Herwinning bespaar energie en geld. Dit skep nuwe werkgeleenthede. Dit bewaar ons omgewingstoestande en verminder lug- en waterbesoedeling. Dit bewaar ook ons natuurlike hulpbronne en die ruimte wat andersins gebruik sou word om van die afvalstowwe ontslae te raak.

Hoe herwin mens?

■ Spoel die houer of artikel uit en plaas dit in 'n deursigtige plastieksak.

In 2010 het die Langeberg-munisipaliteit die tweesakstelsel begin: Die swart sak vir nieherwinbare huishoudelike afval, en die deurskynende sak vir alles wat herwin kan word.

■ Plaas skoon herwinbare goed in die deursigtige sak, los dit op die sypaadjie of bo-op jou rolvullishouer op die dae wanneer die vullis opgetel word.

Moenie die sak met herwinbare goed binne-in die vullisdrom druk nie. Die munisipaliteit sal hierdie sakke saam met die gewone afval op die bepaalde vullisverwyderingdae kom optel.

■ Gaan laai al jou herwinbare goed by jou naaste oorlaaistasie af.

Die Langeberg-munisipaliteit het drie oorlaaistasies, naamlik in Robertson, McGregor en Montagu. Hulle dien as verwerkingsterreine vir die tydelike verwydering van afval waar lede van die publiek alle herwinbare materiaal van 08:30 tot 16:00 op weekdae en 08:30 tot 13:00 op Saterdae kan aflaai.

Watter afvalmateriaal is herwinbaar en wat nie?

Wat kan herwin word?

■ Papier en karton: Koerante, tydskrifte, verpakkingsmateriaal, sakke, bokse, papier vir drukwerk, eierhouers, toiletpapierrolle, sneesdoekiebokse, ens.

■ plastiek: Enige skoongemaakte bottel, gladwrap, koshouers, medisynebottels/-houers, borrelplastiek, skoonmaakmiddelbottels en –houers, ens.

■ Glas: Koeldrankbottels, flesse, gebreekte glas, ens. Maak seker dat alle glasware gewas en droog is voordat dit in die deursigtige sak gesit word.

■ Metaal: Koeldrankblikkies, inmaakblikkies, tinfoelie, ens.

■ E-afval: Indien jy jou ou of ongebruikte rekenaar en/of elektroniese toerusting vir herwinning ingee, beteken dit dat dit veilig en verantwoordelik hanteer en/of vernietig sal word op maniere wat nie 'n gesondheidsrisiko sal inhou of skadelik vir die omgewing sal wees nie.

■ Kos: Kosskraapsels, groenteskille, brood, oorskietkos, ens., kan as kompos vir jou tuin gebruik word

■ Tuinafval: Gras, blare, dooie plante, sekere soorte onkruid, ens. kan ook vir kompos gebruik word.

Wat is nie herwinbaar nie?

■ Tandepastabuise
■ Vensterglas
■ Nat papier
■ Bederfbare goed
■ Vullis

Break the cycle and recycle

The Langeberg Municipality spends thousands of rands each year to process waste, materials that could have been re-used or recycled to preserve our environment for present and future generations to come.

The landfill site in Ashton is reaching its maximum capacity and a new regional landfill site near Worcester has been identified as the preferred alternative.

For residents living in Langeberg, recycling will become vital as all waste will have to be transported to the regional site. Therefore, to keep transportation costs as low as possible, we need to work together to recycle.

Did you know?

Up to 40% of your household waste can be recycled.

What is recycling?

Recycling refers to the collection and reprocessing of used materials which are usually considered to be "waste". These items are sorted and processed to be used as raw materials for the production of new products. While re-use means using old products repeatedly, recycling means using the core elements of an old product as raw material to manufacture new goods.

Why is recycling so important?

Recycling saves energy and money. It creates new jobs. It saves environmental conditions and reduces air and water pollution. It saves natural resources. It also saves land space used for waste disposal.

How does one go about recycling?

Rinse the item and drop it into a clear plastic bag. In 2010 the Langeberg Municipality initiated the two-bag system. The black bag is used for non-recyclable household waste and the clear bag for recyclables.

Put clean recyclable items into your clear bag, leave it out on your pavement on waste collection days or on top of your wheelie bin. Do not place your clear bag inside the wheelie bin. The municipality will collect your clear bag on waste removal days. The clear bags are available on request at all municipal offices.

Drop off your recyclables at your nearest transfer station. The Langeberg Municipality has three recycling transfer stations (Robertson, McGregor and Montagu).

They serve as processing sites for the temporary deposition of waste, where members of the public can drop off recyclables from 08:30-16:30 on weekdays and 08:30-13:00 on Saturdays.

What are classified as recyclable material and what does not?

What items can be recycled?

■ Paper and cardboard: newspapers, magazines, packaging, bags, boxes, printing paper, egg containers, toilet paper rolls, tissues, boxes, and so on.

■ Plastic: cleaned out bottles, gladwrap, food containers, medicine bottles, bubble wrap, cleaning agent bottles, and so on.

■ Glass: colddrink bottles, food jars, broken glasses, and so on. When recycling glass, please make sure glass products are washed and dried before putting them in the recyclables bag.

■ Metal: colddrink cans, food tins, tin foil, and so on.

■ Ewaste: Recycling your unwanted computer and electronic means that it will be managed and disposed of safely and responsibly, in ways that are not damaging to the health of people or the environment.

■ Food: food scraps, vegetable peels, bread, leftovers, and so on can be used as compost in your garden.

■ Garden waste: grass, leaves, dead plants, weeds, and so on can be used as compost.

What items cannot be recycled?

■ Toothpaste containers
■ Window glass
■ Wet paper
■ Perishables
■ Refuse

Ngoko ke, ukuzigcina zisezantsi iindleko kangangoko sinako, kufuneka sisebenzisaneni ekuhlaziyweni ngokutsha iinkunkuma.

Ubusazi?

Ukuya kuma-40% enkunkuma yendlu yakho inakho ukuhlaziywa ngokutsha.

Yintoni ukuhlaziywa ngokutsha kweenkunkuma?

Ukuhlaziywa ngokutsha kwenkunkuma kubhekisele kuqokelelo kunye nokwahlula-hlulwa kwezinto ebesele zisetyenzisiwe neziqapheleka njenge "nkunkuma". Ezi zinto ziye zilungiswe ukuze zibe nokusetyenziswa njengezinto ezinokuncedisa kwimveliso yezinye izinto ezintsha. Ngelixa ukuphinda usebenzise into ibisele isebenzile kuthetha ukusebenzisa into endala kaninzininzi, ukuhlaziya ngokutsha kona kuthetha ukuthathwa kwezinto ezithile ezingundoqo zaleyo indala zilungiselelwe zize ziyo kusetyenziswa njezo zingasilwanga kwimveliso yezinto ezintsha.

Kutheni kubaluleki ukuhlaziywa ngokutsha kwenkunkuma?

It is important that treated water complies with the strict South African National Standards (SANS). Analysis reports are done monthly at these purification plants by an external service provider, the SANS-accredited AL Abbot and Associates. The latest available report, compiled in July, breaks down the five towns' treated water results and shows the water to be safe according to the SANS 241 standards as indicated in this SANS Certificate of Analysis report.

Dit is belangrik dat die behandelde water voldoen aan die streng Suid-Afrikaanse Nasionale Standaarde (SANS). Ontledingsverslae word op 'n maandelikse basis by hierdie suiweringsaanlegte deur 'n eksterne diensverskaffer, die SANS-geakkrediteerde A.L. Abbot and Associates, gedoen. Die mees onlangse verslag, saamgestel in Julie, gee 'n uiteensetting van die vyf dorpe se behandelde water en dui aan dat die water veilig is volgens die SANS 241-standaard, soos in die tabel hierbo.

EPWP makes difference in Langeberg

The Expanded Public Works Programme (EPWP) has become synonymous with being a springboard for many unemployed South Africans. It provides them with that one opportunity they need to get their feet firmly into the working world.

The EPWP is a national government plan to alleviate poverty by recruiting unemployed South Africans into productive work. The programme is targeted specifically at the unskilled and semi-skilled youth, women and people with disabilities.

A total of 213 local people were employed as EPWP beneficiaries in the 2015-2016 financial year under the Langeberg Municipality. In the previous financial year, there were 196 beneficiaries. The number of beneficiaries has slowly been increasing annually- which is testament to the positive effect this programme has had on the region.

The beneficiaries for 2015-2016 were categorised into the following sectors:

- Environmental Sector: 106
- Infrastructure Sector: 24
- Social Sector: 83

Of the 213 beneficiaries, 16 exited the programme into permanent jobs (of the 16, five were absorbed into the municipality); one at the Department of Health and 10 in the private sector.

When this initiative was implemented in Langeberg in 2012-2013, we could accommodate only 114 beneficiaries.

Parliament has added its assent to Cabinet's approval of phase 3 of the programme, which forms part of the municipality's EPWP policy. However, Langeberg Municipality's EPWP policy is still under review.

This programme provides a unique opportunity for the unemployed, by not only affording them a chance to earn a living but also to increase their employability. By imparting skills on them they had never had, they become more marketable.

The Municipality's vision is to build on their EPWP successes, and is hoping to increase its number of beneficiaries in the 2016-2017 financial year.

If you're unemployed, between the ages of 18 and 65, or disabled, you are eligible to get onto the local EPWP database. Visit the Youth Advisory Centre (YAC) or the Local Economic Development (LED) department to register on the database, provide for the unemployed and be eligible to participate in the programme.

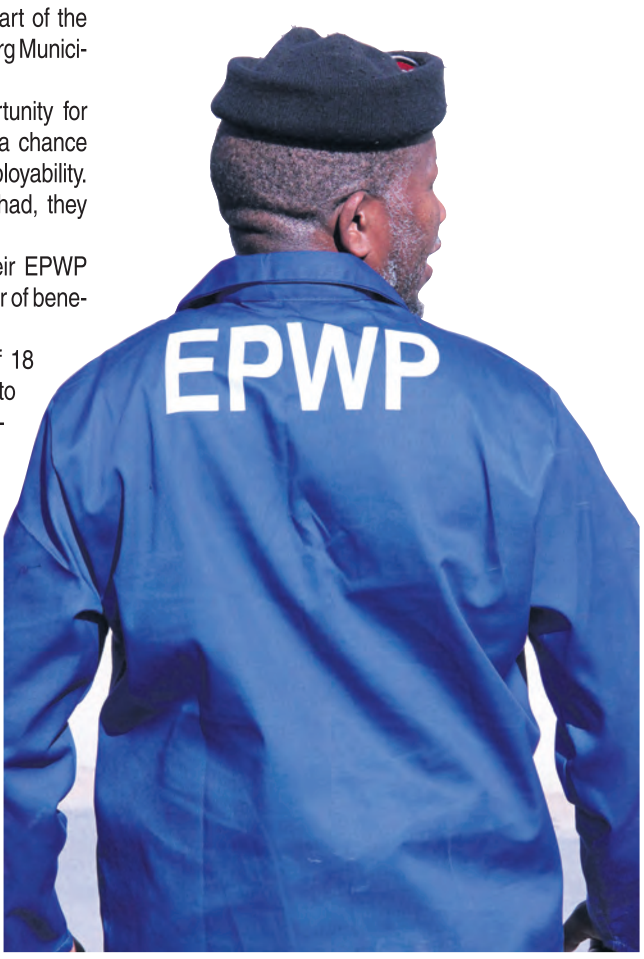
Visit the YAC for more information on the registration process.

The current criteria for projects to comply with the EPWP Policy are as follows:

- Youth 55%
- Women 55%
- Disabled 2%

Requirements for registering on the EPWP database:

- A valid South African ID
- Cellphone number
- Proof of address



UOWP maak 'n verskil in Langeberg

Die Uitgebreide Openbarewerkeprogram (UOWP) het die springplank van menige werklose Suid-Afrikaner geword. Dié program bied hulle daardie een geleentheid wat nodig is om hul voete in die arbeidswêreld te vind.

Die UOWP is 'n regeringsplan om armoede te verlig deur werklose Suid-Afrikaners vir produktiewe arbeid te werf. Hierdie program is op die ongeskoolde en halfgeskoolde jeug, vroue en persone met gestremdheid gemik.

Altesaam 213 mense plaaslik is as UOWP-begunstigdes in die 2015-'16-boekjaar onder die vaandel van die Langeberg-munisipaliteit in diens geneem. In die vorige boekjaar was daar 196 begunstigdes. Die aantal begunstigdes is jaarliks stadig aan die toeneem, wat daarop dui dat hierdie program 'n positiewe invloed op die streek het.

Die begunstigdes vir 2015-'16 is in die volgende sektore gekategoriseer:

- Omgewingsektor: 106
- Infrastruktuursektor: 24
- Sosiale sektor: 83

Uit die 213 begunstigdes is 16 uit die program in permanente poste aangestel: een by die departement van gesondheid en 10 in die private sektor (uit hierdie 16 is vyf in die munisipaliteit opgeneem).

Toe hierdie inisiatief in 2012-'13 in Langeberg geïmplementeer is, kon ons slegs vir 114 begunstigdes voorsiening maak.

Die kabinet en die parlement het fase 3 van die program – wat deel van die munisipaliteit se UOWP-beleid moet vorm – goedgekeur. Die Langeberg-munisipaliteit se beleid is egter nog in oorsig.

Hierdie program voorsien aan die werkloses 'n unieke geleentheid deur nie slegs aan hulle 'n geleentheid te bied om 'n salaris te verdien nie, maar ook om hul indiensneembaarheid te versterk. Met ander woorde, deur hulle met vaardighede toe te rus, is hulle meer geskik vir die arbeidsmark.

Die munisipaliteit se visie is om op die suksesse van sy UOWP voort te bou en hoop om sy aantal begunstigdes vir die 2016-'17-boekaar te laat toeneem.

Indien jy werkloos is, tussen die ouderdom 18 tot 65, of gestremd, kan jy in aanmerking kom om jou naam op die databasis van die plaaslike UOWP te kry. Besoek die Jeugadviessentrum (JAS) of die plaaslike ekonomiese ontwikkelingsdepartement (PEO) vir registrasie op die databasis vir werkloses, om in aanmerking te kom om aan die program deel te neem. Besoek die JAS vir nadere besonderhede om te registreer.

Die huidige kriteria vir projekte om aan die UOWP-beleid te voldoen, is as volg:

- Jeug 55%
- Vroue 55%
- Persone met gestremdheid 2%

Wat is nodig om op die UOWP-databasis te registreer?

- Geldige ID-dokument
- Selfoonnommer
- Bewys van adres
