Tourism students, trainers and officials.

Unemployed youth become qualified tour guides

During Langeberg Municipality's partnership with Gemeente Rheden in Holland, township tourism was identified as a possible source of job creation, giving rise to a project that was started by the Local Economic Development Department.

Its main aim was to attract tourists to the townships in the Langeberg region, and effectively spark a local economic hub within them.

The project also involved training unemployed youth as tour guides. Their role would be to guide and

assist visiting tourists, especially on places to visit, and to encourage them to explore the various other townships in the Langeberg municipal area.

A service provider, giving accredited tour guide and first aid training, was appointed.

The following students successfully completed the training: Mzimazi Kama from Nkqubela, Thabiso Burwana from Nkqubela, Masonwabe Naphakade from Zolani, Debra-Leigh Möhle from McGregor and Marlon Joseph from Robertson.

On 15 February, the students received their official tour guide badges and cards, issued by the Western Cape Department of Tourism, at a special dinner held at the Montagu Country Hotel.

The Executive Mayor, Alderman Henry Jansen Frank Landman, a director at Gemeente Rheden, handed the badges and cards to the five students.

Debra-Leigh Möhle, on students' behalf, thanked the municipality for the opportunity for this qualification and the better chances for employment it creates.

Werklose jongmense kwalifiseer as toergidse

By die Langeberg-munisipaliteit se vennootskap met Gemeente Rheden in Holland, is 'n township-toerismeprojek geïdentifiseer deur die departement vir plaaslike ekonomiese ontwikkeling.

Die hoofdoelwit van dié projek is om toeriste na die townships in die Langeberg-streek te lok en sodoende 'n plaaslike ekonomiese hub in dié woonbuurte tot stand te bring.

'n Gedeelte van die projek het behels om werklose jongmense as toergidse op te lei. Die rol van die gedise sal wees om toeriste by te staan met idees vir plekke om te besoek, asook om toeriste aan te moedig om die verskillende townships in die

Langeberg- munisipale streek te besoek.

'n Diensverskaffer wat geakkrediteerde toergids- en noordhulpopleiding kan voorsien, is aangestel.

Studente wat die kursus suksesvol voltooi het, is Mzimazi Kama van Nkqubela, Thabisa Burwana van Nkqubela, Masonwabe Naphakade van Zolani, Debra-Leigh Möhle van McGregor en Marlon Joseph van Robertson.

Die studente het 15 Februarie 2018 hul amptelike toergids-kaartjies en -kentekens ontvang, oorhandig deur die Wes-Kaapse

departement van toerisme op 'n spesiale geselligheid by die Montagu Country-hotel.

Die uitvoerende burgemeester, raadsheer Henry Jansen en Frank Landman, direkteur van Gemeente Rheden, het die kentekens en kaartjies aan die vyf studente oorhandig.

Debra-Leigh Möhle het namens die studente die Langeberg-munisipaliteit bedank vir die geleentheid om hul kwalifikasies te verbeter en sodoende die geleentheid te hê om beter werkgeleenthede in die toerismebedryf te verkry.

Ulutsha olungasebenziyo lwenziwe Iinkokheli zabaKhenkethi ngokufanelekileyo

Ngexesha lentsebenziswano kaMasipala waseLangeberg kunye neGemeente Rheden yaseHolandi, iprojeki yoKukhokelela Abakhenkethi Ekuhlaleni yathi yachongwa liSebe lokuPhuhlisa uQoqoshu kuMasipala.

Eyona njongo iphambili yaleprojek ikuuzisa abakhenkethi ukuba bazo kutyelela ilokishi ezikwingingqi yaseLangeberg, ize, ngokwenza njalo, kuveliswe isanzulu esivuselela ezoqoqoshu ekuhlaleni phakathi kwabo.

Ingxenye yaleprojek yayikuku qeqesha ulutsha olungasebenziyo benziwe Iinkokheli zabaKhenkethi. Indima yeenkokheli zabakhenkethi kukunceda abakhenkethi ngeendawo abanokuzityelela futhi

babakhuthaze ukuba bazokubona ilokishi ezhalkeneyo ezikulendawo kaMasipala waseLangeberg.

Onikezela ngalenkonzo, nethi ibonelele ngoqequesho olufanelekileyo kwizifundo zoKukhokhela Abakhenkethi kunye Noncedo Lokuqala, waye waqeshwa. Ababafundi balandelayo balugqibe ngempumelelo uqequesho lwabo:

Mzimazi Kama - waseNkqubela, Thabisa Burwana - waseNkqubela, Masonwabe Naphakade - waseZolani, Debra-Leigh Möhle - waseMcGregor, Marlon Joseph - waseRobertson.

Abafundi baye bafumana iiBheji ezesemthethweni zokuKhokheli abaKhenkethi kunye namaKhadi,

nezinikezelwe liSebe: likaRhulumente waseNtshona Koloni: lezoKhenketho, kumsitho ubukhethenkile wesidlo sangokuhlwa kwiHotele yaseMontagu Country, ngomhla we-15 Februari 2018.

USodolophu weSigqeba, u-Ald. H. Jansen kunye noMnu. Frank Landman, uMolathisi waseGemeente Rheden, banikezele ngeebheji kunye namakhadi kubafundi abahlanu.

UNkszn. Debra-Leigh Möhle, nobemele abafundi, ubulele uMasipala waseLangeberg ngelithuba abathe balifumana lokuba baphucule izifundo zabo zona zizakuthi zibancede ekufumaneni imisebenzi engcono kwicandelo lezokhenketho.

Holidays call for rescheduled waste collection

Due to the upcoming Public holidays, the Municipality has to reschedule the collection of waste.

Your waste will not be removed on Friday, 27 April 2018, but will instead be done on Thursday 26 April 2018. All waste facilities will be closed on 27 April 2018.

On Tuesday 1 May 2018, the collection of waste will continue as normal. On this day, all waste facilities will be open from 08:30 to 16:30.

Herskeduleer van vullisverwydering

Weens die opkomende vakansiedae is die munisipaliteit genoodsaak om verwydering van vullis te herskeduleer.

U vullis sal dus nie op Vrydag, 27 April 2018 verwyder word nie; dit sal op Donderdag 26 April 2018 gedoen word. Alle vullisterreine sal gesluit wees op 27 April 2018.

Op Dinsdag, 1 Mei 2018 sal verwydering soos normaal voortgaan met alle vullisterreine oop vanaf 08:30 tot 16:30.

Iiholide zenze kwahlenga-hlengiswa amaxesha okuthutha inkunkuma

Ngenxa yeziHolide zizayo zoLuntu, uMasipala kufuneke ahlenga-hlengise amaxesha okuthuthwa kwenkunkuma.

Inkunkuma yakho ayizukuthuthwa ngoLwesihlanu, umhla wama-27 Apreli 2018, kodwa iyakuthuthwa ngoLwesine, umhla wama-26 Apreli 2018. Zonke iinkonzo zokuthutha iinkunkuma ziya kuba zivaliwe ngomhla wama-27 Apreli 2018.

NgoLwesibini umhla wo-1 Meyi 2018, ukuthuthwa kwenkunkuma kuzakuhamba njengesiqhelo. Ngolusuku, zonke iinkonzo zokuthuthwa kwenkunkuma ziyakuvulwa ukususela ngentsimbi yesi-08:30 ukuya kweye-16:30.

Skietwerk in Kogmanskloof hervat

As deel van die opgradering van die Kogmanskloofroete na Montagu, gaan die belyning van dié pad op verskeie plekke verbeter word.

Op sommige plekke gaan dit nodig wees om dele van die rotswand weg te skiet om spasie vir die nuwe, opgegradeerde pad te maak. Die skietwerk sal plaasvind op Dinsdae en Donderdae vir die volgende drie tot vyf maande.

Die pad deur Kogmanskloof sal

van 11:00 tot 13:00 gesluit wees op die dae wat skietwerk gedoen word.

Om die optimale veiligheid van motoriste te verseker, sal verkeer verhoed word om Kogmanskloof binne te gaan van 11:00 op skietdae.

Verkeer sal gestop word aan die oostekant van Ashton en aan die westekant van Montagu.

Verkeerstekens sal motoriste vooraf van dié padsluitings in kennis stel.

Blasting in Cogmanskloof to resume

As part of the upgrading of the Cogmanskloof route to Montagu, the road alignment will now be improved at several locations.

At some of these locations, blasting of the rock face will be required to create space for the new (upgraded) road.

The blasting will occur on Tuesdays and Thursdays for the next three to five months. The road through Cogmanskloof will be

closed from 11:00 to 13:00 on the days of blasting.

With the intention of providing the safest possible environment, traffic will be prevented from entering Cogmanskloof at 11:00 on the days of blasting.

The traffic will be stopped on the eastern side of Ashton and on the western side of Montagu.

Road signs will warn motorists in advance of the road closures.

Ukuqhushumbiswa kweCogmanskloof kuza kuphinda kuqalise

Njengenxene yokuphuculwa kwendlela yaseCogmanskloof eya eMontagu, ulungelewaniso lwendlela ngoku luzakuphuculwa kwindawo ezinizi.

Kwezinye zezindawo, ukuqhushumbiswa kwamatye kuzafuneka kwenziwe ukuze kube

nokudalwa isikhala sendlela entsha (ephuculiweyo).

Umsebenzi wokuqhushumbisa uzakwensiwa ngoLwezibini nangooLwezine kwiinyanga ezi-3 ukuya kweziyi-5.

Indlela enqumla phakhathi eCogmanskloof izakuvalwa

ukususela ngentsimbi ye-11:00 ukuya kweyoku-13:00 ngeentsuku zokuhushumbisa.

Ngeenjongo zokwenza umsebenzi okhuseleke ngeyona ndlela, iimoto ziza kuthintelwa ukuba zingene eCogmanskloof ngentsimbi ye-11:00 ngeentsuku

zokuhushumbisa.

Iimoto ziza kunqandwa kwicala lasempuma e-Ashton kunye nakwicala lasentshona eMontagu.

Iimpawu zeendlela zizakulumkisa abaqhubi kuselithuba malunga nokuvalwa kweendlela.

Cogmanskloof Blasting Schedule (March 2018 to May 2018)

Die Kogmanskloof-skedule vir skietwerk vir die volgende paar maande (Maart 2018 tot Mei 2018)

Boorgate kan help

Met Dag Zero wat al hoe nader kom, het die Langeberg-munisipaliteit begin om alternatiewe waterbronne te benut om druk op die aanvraag na water te verlig.

Die munisipaliteit het R3 miljoen van die Nasionale Rampbestuurfonds ontvang en dié geld is aangewend om 'n konsultant aan te stel om boorgate in Montagu te sink.

Boorwerk het vroeg in Februarie begin, maar ongelukkig was die eerste en tweede boorgate droog. Tot op hede het die konsultant op vier ander plekke geboor in die soektog na water.

Die ingenieursafdeling wag tans vir die konsultant om die vloei van dié nuwe gate te toets.

Die Brandvleidam, wat 70% van die Langebergstreek se water voorsien, se watervlak het 26 Februarie op die skokkendevlak van 13,9% gelê. Indien verbruik teen die huidige tempo voortduur, sal die Brandvleidam die Langeberg slegs tot 30 April van water kan voorsien (Dag Zero).

Die munisipaliteit beplan om vol-

ledig funksionerende boorgate in Montagu te hê voor einde April.

"Ons gaan poog om daagliks 2 M³ water uit die boorgate te pomp, maar ons sal egter eers verseker wees van die volume wanneer die boorgate voltooi is en ons die sterkte van die gate kon toets. Die boorgate sal permanent in werking wees," sê Maynard Johnson, bestuurder van siviele ingenieursdienste van die Langeberg-munisipaliteit.

Johnson sê ook verder dat die boorgatwater vir Montagu bestem is en direk in die waternetwerk gepomp sal word vir verbruik. Indien nodig en Dag Zero breek wel aan, kan dié water teruggepomp word na Ashton, van waar dit vervoer sal word na nooddawerpunte.

"Die munisipaliteit is aan die werk om 'n vragmotor aan te skaf om water tussen verskillende dorpe te vervoer," sê hy.

Die munisipaliteit doen 'n beroep op alle huishoudings om voort te gaan met waterbesparing deur minder as 15 kℓ water per maand te gebruik, reënwater op te gaar en drinkwater in bottels te vries, indien moontlik.

Die burgemeester van Langeberg, Henry Jansen, het 'n wateraksie-komitee saamgestel om te alle tye op hoogte te wees van die waterkrisis.

Meld lekkasies en oortreders aan by 0860 88 11 11.

Besoek is afgelê om te sien hoe die boorwerk in die Langeberg-streek gedoen word.

Van die pype wat in die boorproses gebruik word.

Amanzi afunxwa ngaphantsi komhlaba anokuba luncedo

Njengokuba Umhla Wokuphela Kwamanzi Aphuma Empompeni usiya usondela, uMasipala waseLangeberg seleqalisile ukuvelela ezinye iinkalo zemithombo yamanzi ukuzisa isiqabu kwezimfuno zikhoyo zamanz.

UMasipala ufumene izigidi ezi-3 zeerandi kwiMali Yesibonelelo yoLawulo lweNtlekele kaZwelonke, nethe yasetyenziselwa ekuqasha umcebisi wokwenza umsebenzi wokufunxwa kwamanzi phantsi komhlaba eMontagu.

Ukombiwa komhlaba kuqaliswe ebutsheni bukaFebruwari, senkunjalo umsebenzi wokuqala kunye nowesibini wokufunxa amanzi ayikhang ibe yenempumelelo.

Ukuzokuthi ga ngoku, abacebisi sebombe imingxunya kwezinye iindawo ezine ngenjongo zokufumana amanzi.

Isebe lezeNjineli ngoku lilindele kubacebisisi ukuba bavavanye imingxunya emitsha enokuzisa amanzi.

Idama laseBrandvlei nelibonelela iLangeberg ngomyinge wamashumi asixhenxe ekhulwini amanzi libonakalise ukuhla kumthamo walo ngokwethusayo kakhulu ngezinga lamanzi eliphantsi elikumyinge weshumi elinesithathu nesiqingatha lesithoba ekhulwini ngomhla wama-26 kuFebruwari 2018. Ngokuqikelela kwindlela esiwasebenzisa ngayo amanzi, idama laseBrandvlei lingakwazi kuphela ukuyibonelela iLangeberg ngamanzi kude kube ngumhla wama-30 Apreli 2018 (ngomhla Wokuphela kwaManzi).

UMasipala uceba ukuba ezindawo kufunxwa kuzo amanzi aphuma phantsi komhlaba eMontagu zibe zisebenza ngokugqibeleyo phambi kokuphela kukaApreli. "Siza kuzama ukufunxa i-

2ML zamanz ngosuku, kodwa siza kukwazi ukuqinisekisa ngesona sixa esinokusifunxa ngosuku emva kokuba yombiwe imingxunya yaze yavavanywa ukukhangela imveliso ozanayo. Le mingxunya izakusebenza ngokusisigxina," utshilo uMaynard Johnson, uMlawuli: weeNkonzo zeNjineli zoLuntu kuMasipala waseLangeberg.

UJohnson wongezelele ngelithi lamanzi alungiselelw abantu baseMontagu kwaye azukuthululelw kwimijelo yemibhobho yamanzi yalapho khonkuze abe nokusetyenziswa apho. Azakuthi lamanzi akungena kwimijelo yemibhobho yamanzi alapho, kungenzeka ukuba ikhona imfune, amphontshelwe umva asiwe Ashton ukusuka apho athunyelwe kwindawo ezizakusebenza njengendawo zongxamiseko zokufumeneka kwamanzi xa kuthi kwafika umhla wokuphela kwamanzi.

"Umasipala kananjalo wenza iinzame zokuthenga itraki ezakufunqula amanzi iwase kwiidolphu ezahlukaneyo," utshilo.

Sibongoza zonke izindlu ukuba ziqhubekke ngeenzamo zazo zokonga amanzi ngokuthi zisebenzise ngaphantsi kwe-15KL zamanz ngenyanga, wakhongozele uwagcine amanzi emvula futhi ufake nakwisikhencezisi sakho iimbhodlela zamanz ukuba unakho.

Esinye sezixhobo ezisetyenzisel wa ukudibanisa umatshini wokomba.

Umatshini osetyenziselwa ukomba emhabeni.

Boreholes can help

As Day Zero approaches, Langeberg Municipality has started tapping into alternative water sources to bring relief to the current water demand.

The Municipality received R3 million from the National Disaster Management Fund, which has been used to appoint a consultant to establish boreholes in Montagu.

Drilling began in early February, but the first and second boreholes proved unsuccessful.

During this month (March), the consultant has already drilled at four other sites in search of

borehole water.

The Engineering Department is currently waiting for the consultant to test the new boreholes for yield.

The Brandvlei Dam, which supplies Langeberg with 70% of its water, was recorded at a shockingly low 13,9% on 26 February. Estimated on our current water consumption, the Brandvlei Dam will be able to supply Langeberg with water only until 30 April (our "Day Zero").

The Municipality is planning to have fully functional boreholes in Montagu before the end of April. "We will try to extract 2 Ml per

day, but will be certain about the daily amount only after the holes have been drilled and tested for yield," said Maynard Johnson, Manager: Civil Engineering at Langeberg Municipality. "The boreholes will be operational on a permanent basis."

Johnson added that this water is intended for Montagu and will be distributed directly into its network for consumption. Once this water source enters the Montagu network, it may if necessary be reverse-pumped to Ashton, and from there be transported to emergency points come "Day Zero".

"The municipality is also in the process of purchasing a truck to cart water to the various towns," Johnson said.

"We urge all households to continue with their water saving efforts, by using less than 15 kl of water per month, store rainwater and even freeze a few bottles of drinking water, if possible."

The Mayor of Langeberg, Ald. Henry Jansen, has formed a water action committee to keep him informed about the water crisis at all times.

Water leaks and non-compliant users can be reported to 0860 88 11 11.

Amanzi Afunxwa phantsi komhlaba eLangeberg

UMasipala waseLangeberg kungoku nje uqalise inqanaba lesi-2 lemiqathango yokusetyenziswa kwamanzi. Kubonakala ngathi kukho into engacaciyo xa kufikelelwa kumba wokusebenzisa amanzi afunxwa phantsi komhlaba.

Ngenxa yefuthe elibi elithi libekho kwindalo ngokubangelwa kukuqhojowa kwamatye phantsi komhlaba kuba kufunxwa amanzi, lemingxunya kufuneka ibephantsi kolawulo kwaye ihlolwe. Ukuba nawe ufunxa amanzi phantsi komhlaba kwindawo yakho, kufuneka ubhalise kumasipala wakho kanjalo uxhome ngokucacileyyo nombhalo obonakalisa oko kwisikhawi eso sakho. Oku kuyimfuneko ngokusemthethweni ngelixxesha lemiqathango yokusetyenziswa kwamanzi kwaye kubalulekile ukuze uthinteleke ungfumani sohlwayo ngokwaphula umthetho wemiqathango yokusetyenziswa kwamanzi.

Iye yafikelela kumasipala into yokuba amanzi afunxwa phantsi komhlaba ayathengiswa okanye ayathuthwa asiwe kweziyi iindawo aze athululelwel kwimibhobho ehamba phantsi komhlaba ukuze

asetyenziselwe ukunkcenkcethsela iigadi kwizindlu ezithile. Ukuthengiswa amanzi sisenzu esingekho semthethweni ukuba awubhalisanga kwiSebe lazaManzi noGutyulo njeNgonegunya kwiiNkonzo lwaManzi.

Ngenxa yoku, umasipala uzakunyanzeleka ukuba ayiqinise imithetho yokuthotyelwa kokusetyenziswa kwamanzi afunxwa phantsi komhlaba. Ngokuvisana neCandelo lama-63 loMgaqo-Nkqubo waManzi nelapapashwa kwiGazethi yePhondo kaNombolo6779 yomhla ka 20 Agasti 2010:

- Akukho bani uvumeleke ombe, okanye abangele okanye avumele kombiwe, umngxuma wokufunxa amanzi phantsi komhlaba, ngaphandleni kokuba uthet wanika uMasipala isaziso esibhaliweyo ubuncinane kwiintsuku ezili-14 phambi kokuba uqhube nenjongo zakho
- Isaziso esikhankanywe kwicandelwana (luku-1) kufuneka

sicacise indawo ekucetywa ukombiwa kuyo kwanesizathu azakusetyenziselwa wona amanzi.

- Ukuba ngaba amanzi afunxwe phantsi komhlaba okanye aveliswe komnye umthombo okwesinye nasiphina isakhiwo athi asetyenziselwe isizathu esiza kubangela okokuba achithelwe okanye ingxene yaho ichithelwe kwimibhobho yogutyulo kamaisipala, umnimzzi kufuneka afakele imitha ngokwendlela afuna ifakelwe ngayo umasipala kumbhobho osuka kwindawo aphi ekufunxwa amanzi phantsi komhlaba okanye kweminye imibhobho eyimithombo yamanzi ukuya kulo ndawo okanye kwezondawo nalapho azakusetyenziswa khona.

- Ibhunga linakho, ngesaziso soluntu, ukuba sifune umnimzzi waza naziphina izakhiwo ezikummandla kamaisipala aphi kukho khona amanzi afunxwa phantsi komhlaba okanye, ukuba umnimzzi asinguye ohlala kwezozakhiwo, lowo uhlala kuzo achazele ibhunga ngalomanzi afunxwa phantsi komhlaba aphuma kwezozakhiwo, futhi alinike looncukacha ngalomingxunya nenokuthi liyifune.

- UMasipala, ukuba ngaba ukufumana kuyimfuneko, angafuna ukuba kwensiwe amalinge okufunda banzi ngawo oko kwensiwe ngeendleko zomnimzzi khonkuze

kukhangwe naliphi na ifuthe elinokubangelwa esisicelo sokufunxa amanzi phantsi komhlaba okanye indlela esingayichapazela ngayo impilo-ntle yoluntu.

UMasipala waseLangeberg udimaza ngamandla abahlali abafuna ukusebenzisa amanzi afunxwa phantsi komhlaba kuba bezakunkencceshela iingca zabo okanye ukugcwala amaqua okuquphba. Ububi balembalela kwiNtshona-Koloni bufuna wonke ubani adlale indima yakhe ekongeni lomthombo wobomi ubaluleke kangaka. Ngeenzame zokulondoloza lamanzi afunxwa phantsi komhlaba, sikhuthaza abo basebenzisa wona ukuba kungcono bawasebenzisele kuphela xa bekhuzula izindlu zangasese xa kuyimfuneko ukwenza njalo. Ngokwenza njalo uyakuba uphungula uxinzelelo kumanzi amele ukusetyenziselwa ukuselwa, kananjalo uyakube ubonakalisa ukuzibophelela kwakho ekuthinteleni uMhla Wokuphela kwaManzi.

Ukuwubona ngokupheleleyo lomgaqo-nkqubo okanye ukwenza isicelo sokomba umngxunya wokufunxa amanzi aphuma phantsi komhlaba, isicelo sokwenza oko ukungasifumana kwiwebhusaythi yaseLangeberg (www.langeberg.gov.za)

Boreholes in the Langeberg

Langeberg Municipality is currently implementing stage 2 water restrictions. There seems to be a grey area when it comes to using water from boreholes.

Due to the harmful impact that extracting water from the earth's aquifers has on the environment, borehole water should be regulated and monitored. If you have a borehole or wellpoint on your property, you are required to register it with the municipality and display signage on your property. This is a legal requirement at this time of water restrictions, and is necessary to avoid fines for violating water restrictions.

It has come to the attention of the Municipality that borehole water is being sold or transported to other properties for the irrigation of some residents' gardens. Selling water is an illegal practice if you're not registered with the Department of Water and Sanitation as a Water Service Authority (WSA).

As a result, the Municipality will be forced to tighten compliance around borehole water use. Section 63 of the Water By-law, published in the Provincial Gazette, No 6779 of 20 August 2010, says:

- No-one may sink or dig, or cause or permit to be sunk or dug, a well, wellpoint or borehole, unless the Municipality is provided with at least 14 days' written notice of his or her intention to do so
- The notice contemplated in subsection (1) must state the proposed location and purpose for which the water is to be used.
- If water obtained from a borehole or other source on any premises is used for a purpose that gives rise to the discharge of such water, or a portion of it, into the municipality's sewerage system, the owner must install a

meter to the municipality's specifications in the pipe leading from such borehole or other source of supply to the point or points where it is so used.

● The council may, by public notice, require the owner of any premises within any area of the municipality on which a borehole exists, or (if the owner is not in occupation of such premises) the occupier, to notify it of the existence of a borehole on such premises, and provide it with information on the borehole, as required.

● If necessary, the Municipality may require that a study be undertaken at the cost of the owner to assess any impact the proposed wellpoint or borehole may have on the well-being of the community.

The Langeberg Municipality strongly discourages residents from using boreholes to water their lawns or fill up swimming pools. The severity of the drought in the Western Cape requires everyone to do their bit to save this precious life source. In an effort to preserve borehole water, we encourage those consumers, rather, to use it to flush toilets, when it is really necessary to flush. In this way, you will relieve the strain on potable water, and show your commitment to avoiding "Day Zero".

To view the full by-law or to apply for permission to sink a borehole, an application can be downloaded from the Langeberg website (www.langeberg.gov.za).

Kyk mooi hoe jy jou boorgat aanwend

Die Langeberg-munisipaliteit implementeer tans Vlak 2-waterbeperkings. Die gebruik van boorgatwater is egter 'n grys gebied.

Omdat die onttrekking van water uit die aarde se watertafels 'n nadelige uitwerking op die omgewing het, moet die gebruik van boorgatwater geregeleer en gemonitor word.

Mense wat boorgate of putte op hul erwe het, moet by die munisipaliteit regstreer en moet ook 'n kennisgewingbord op die erf aanbring.

Met waterbeperkings vereis die wet dit en moet dit gedoen word sodat boetes vir die oortreding van die waterbeperkings vermy kan word.

Dit het onder die munisipaliteit se aandag gekom dat boorgatwater verkoop word of na ander erwe aangery word om tuine nat te lei.

Die verkoop van water is onwettig as jy nie by die departement van water en sanitasie geregistreer is as 'n waterdiensowerheid (WDO) nie.

Die munisipaliteit is dus genoodsaak om strenger beheer toe te pas op die gebruik van boorgatwater. Luidens Seksie 63 van die Ordonnansie op Water soos gepubliseer in die Provinciale Koerant Nr 6779 van 20 Augustus 2010:

- Niemand mag 'n boorgat sink of grawe, of veroorsaak of toelaat dat 'n boorgat gesink of gegrawe word, tensy die munisipaliteit minstens 14 dae vooraf skriftelik in kennis gestel is van die voorneme om dit te doen nie.
- Die kennisgewing soos hier bo vermeld, moet die voorgenome ligging van die boorgat aandui en ook aandui waarvoor die water gebruik gaan word.
- Indien die water wat uit die boorgat gepomp

word (of van enige ander bron op enige erf) só aangewend word dat dit, of 'n gedeelte daarvan, in die munisipale rioolstelsel beland, moet die eienaar 'n meter op spesifikasie van die munisipaliteit 'n pyp tussen die boorgat en die gebruikspunt van die water installeer.

● Die munisipaliteit mag, deur middel van 'n openbare kennisgewing, die eienaar of okkuperdeer van 'n erf in enige munisipale gebied waarop 'n boorgat geleë is, verplig om die munisipaliteit in te lig oor die bestaan en besonderhede van die boorgat.

● Die munisipaliteit mag, indien dit nodig geag word, vereis dat 'n ondersoek gedoen word, op koste van die eienaar, om vas te stel watter impak die voorgenome boorgat, waterpunt of put op die welstand van die gemeenskap mag hê.

Die Langeberg-munisipaliteit raai inwoners ten sterkste af om boorgatwater te gebruik om tuine nat te lei of swembaddens vol te maak. Die omvang van die droogte in die Wes-Kaap vereis van elkeen om sy deel by te dra om hierdie waardevolle lewensbron te bespaar. In 'n poging om boorgatwater te bespaar, wil ons inwoners eerder aanraai om dié water te gebruik om toilette met te spoel, en ook netanneer dit regtig nodig is. Só help jy om die druk op die drinkwaterreservewes te verlig en jou samewerking om Dag Zero te vermy.

Om die volle ordonnansie te besigtig, of om aansoek te doen vir toestemming om 'n boorgat te sink, besoek die munisipaliteit se webtuiste by www.langeberg.gov.za om die aansoekvorm af te laai.
