Die uitvoerende burgemeester, rdh. Henry Jansen, deel inligting oor waterbesparing uit aan 'n motoris in Voortrekkerweg in Robertson.

Langeberg- waterveldtog

"Ons is vandag hier om 'n eenvoudige boodskap met julle te deel: Bespaar water."

Dit was die boodskap van raadsheer, Henry Jansen, uitvoerende burgemeester van Langeberg-munisipaliteit met sy toespraak oor waterbesparing by Laerskool Bonnievale.

Meer as 1 000 leerders het 16 Maart in die skooldaal bymekaargekom toe die munisipaliteit en departement van plaaslike regering saamgespan het om 'n wateraktiveringsprogram in

die streek van stapel te stuur.

Jansen het die leerders eenvoudige wenke gegee oor hoe om water te bespaar en hulle ook vermaak met 'n vraag-en-antwoord sessie oor waar water vandaan kom.

Op dieselfde dag is 'n padblokkade op die hoek van Reitz- en Voortrekkerweg in Robertson gehou met die doel om motoriste bewus te maak dat hulle 'n waterskaarste gebied betree. By dié padblokkade is daar ook handreinigers uitgedeel.

Jansen en Maynard Johnson, bestuurder: siviele ingenieur by

Langeberg-munisipaliteit het ook 'n onderhoud met radio-aanbieder, Vuyo Mrashula van Valley FM, gehad om die waterkrisis te bespreek en die toekomstige planne oor hóé om die krisis af te weer met die luisteraars te deel.

Die veldtog was baie suksesvol.

- Langeberg-munisipaliteit het die waterbeperkings van vlak 2- na vlak 1-waterbeperkings verander ná die goeie reënval die afgelope tyd asook die inwoners se waterbesparings pogings.

Langeberg's water campaign

"We are here today to deliver a simple message: Save Water."

These were the words of Alderman Henry Jansen, Executive Mayor of Langeberg, in a water saving address to learners of Bonnievale Primary School.

More than 1 000 learners were gathered in the school hall on 16 March to participate in a Water Activation Programme for the region, which the Langeberg Municipality and Department of Local Government are collaborating on.

Jansen gave the learners simple tips on how to save water at home, and entertained them with a Q&A about where water comes from.

On the same day, a friendly roadblock was held on the corner of Reitz and Voortrekker Road in Robertson. Its aim was to stop passing motorists and inform that they were entering a water scarce environment, and to provide them with hand sanitisers.

Jansen and Maynard Johnson, Manager: Civil Engineering at Langeberg Municipality had a "live on air" conversation with Vuyo Mrashula from Valley FM to discuss the current water crisis as well as the municipality's future plans to address it.

This event was declared a great success.

*Langeberg Municipality has now reduced its Water Restriction Levels from Stage 2 to Stage 1, after experiencing adequate summer rainfall and thanks to residents' water saving efforts throughout the crisis period.

Executive Mayor Alderman Henry Jansen enjoys a moment with the learners of Bonnievale Primary School, who were excited about receiving water bottles as part of Langeberg Municipality's Water Activation Campaign.

Iphulo Lamanzi laseLangeberg

"Silapha namhlanje siniphathela umyalezo olula: Yonga amanzi."

La ibengamazwi kaAld Henry Jansen, uSodolophu weSigqeba kuMasiphala waseLangeberg ngoxa enikezela ngentetho yakhe yokongamanzi kubafundi beSikolo saMabanga Aphakathi saseBonnivale.

Bangaphezu kwe-1000 abafundi ebebehleli kweholo lesikolo ngomhla we-16 Matshi 2018, emva kokuba uMasipala waseLangeberg kunye neSebe looRhulumente baseMakhaya bethe babambisana ekusingatheni iNkqubo yeNtshukumo engaManzi kulenkqila.

UJansen unike abafundi amanqaku alula ngendlela abanokonga ngawo amanzi emakhaya, kwakho waye wabonwabiswa ngemibuzo nangeempendulo malunga nemvelaphi yamanzi.

Kwangolusuku lunye, kwaye kwavalwa iindlela ezidibana kwikona yesitalato iReitz kunye neVoortrekker eRobertson. Injongo zokuvalwa kwezindlela kwakumiswa abaqhubi ukuze bacaciselwe ukuba bangena kummandu onqatwelwe ngamanzi, kananjalo baphiwe into abanokuyisebenzia ukuhlamba

u-Ald. Henry Jansen (uSodolophu weSigqeba) ukhankanya ukubaluleka kokonga amanzi kubafundi beSikolo saMabanga Aphakathi eBonnievale.

izandla ngaphandle kwamanzi.

UJansen noMaynard Johnson, uMphathi: weeNkonzo zeeNjineli zoLuntu, kuMasipala waseLangeberg, bebobabini baye banodliwano-ndlebe 'kumaza omoya' kunye noVuyo Mrashula wezikolezomoya iValley

FM, bebexoxa ngengxaki ekhoyo yamanzi kwanezigcwangciso zikamasipala zexesha ezelizayo zokuhlangabenzana nale meko.

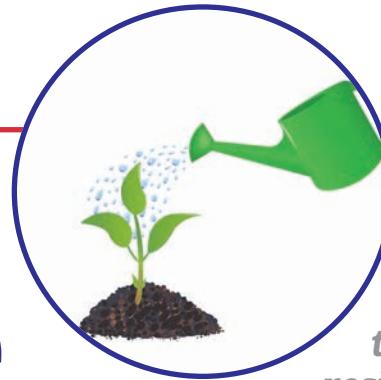

Lomsitho wabhengeza njengobe yimpumelelo.

*UMasipala waLangeberg ngoku

ulehlisile iNqanaba leMiqathango yokusetyenziswa kwamanzi ukusuka kwiNqanaba lesi-2 ukuya kwelo-1, emva kokufumana iimvula zehlobu futhi, bayabulelwa abahlali ngeenzame zabo zokonga amanzi ngexesha leengxaki zamanzi.

Water restrictions reduced to Level One

Summer rains bring good news to Langeberg residents

Level 1 water restrictions were implemented in your latest meter reading and billing cycle, which took effect after 1 April. In light of adequate summer rainfall experienced in the Langeberg region, together with a decreasing irrigation demand (as less water is being released from the Brandvlei Dam), the situation in each town has been reassessed.

The storage dams in all five towns, which were at about 50% in January 2018, have now reached their full capacity (100%).

The reduction in water demand has prolonged our

supply from the Brandvlei Dam until 24 May 2018, after which the last 7 million m³ of water will be extracted strictly for drinking purposes.

An assessment done by the Langeberg Engineering Department and Central Breede River Water Users Association (CBRWUA), indicates the storage dams within Langeberg have enough water until the end of October 2018, even if no rainfall is experienced.

A report from the CBRWUA indicated that with predicted rainfall and effective management of our water

sources, Day Zero for Langeberg Municipality will not arrive in 2018.

Based on this assessment, the Mayoral Committee requested that its water restrictions be adjusted to Level 1. According to Izak van der Westhuizen, Director: Engineering Services at Langeberg Municipality, this is good news, but warns: "We must remember that we are still facing the worst drought of the century, and that the Brandvlei Dam remains at critical levels of about 10%. Saving water should remain a priority of all households and

businesses."

The restrictive measures of Level 1 includes:

- Watering of gardens may be done only for two hours per day between 18:00 to 20:00 twice a week.
- A fine in terms of Section 75A of the Systems Act is a 50% penalty on tariffs for monthly consumption in excess of 30 kilolitres per month per household, excluding indigent households.
- At sports fields only watering of cricket pitches, golf course greens and bowling greens is permitted for two hours a day,

twice a week, unless their own source of water is used.

• No hosing of roofs and driveways, and no washing of vehicles with a garden hose are permitted. (This is not applicable to any bona fide and full-time commercial enterprise whose business it is to wash cars.)

All contraventions must be reported to the call centre, and followed-up immediately by law enforcement.

Any person contravening these restrictions is guilty of an offence and, on conviction, is liable to a fine as published in the annual tariffs list.

Imiqathango yokusetyenzisa kwamanzi ihlile ukuya kwInqanaba lokuQala

Imvula zehlobo zize neendaba ezintle kubahlali baseLangeberg

Inqanaba lokuqala lemiqathango yokusetyenzisa kwamanzi lizakuqalisa ukusebenza xa kufundwa imitha zamanzi owasebenzisileyo naxa kuqulunqwa ityala lakho lamanzi elindelayo lento izakwenzeka ukusukela ngomhla woku-1 April 2018.

Emva kokubonakala kweemvula zehlobo ngokwaneleyo kule nkqila yaseLangeberg, okuquka nokuncipha kweemfuno zokusetyenzisa kwamanzi kwimibhobho yokunkcenkceshela ahamba phantsi komhlaba (njengokuba iDama laseBrandvlei belinkinkisha amanzi kancinci), imeko bume bedolophu nganye iphinde yahlolisawa.

Amadama agcina amanzi kuzo zontlanu iidolphu nebeme kumyinge wama-50 ekhulwini ngoJanuwari, kungoku agcwele ayaphuphuma(100%).

Ukuncipha kweemfuno zamanzi kuye kwandisa isibonelelo esisifumanakwiDama laseBrandvlei side sayokufikelela kumhla wama-24 Meyi 2018, emva koko amanzi okugqibela angange zigidi ezi-7 zamanzi azakufunselwa ukuba asetyenziselwe ukusela kuphela.

Uhlolo olwensiwe liSebe lezeNjineli zaseLangeberg kunye neQumrhu labaSebenzi Bamanzi leSithili saseBreede River(CBRWUA), libonisa ukuba amadama akwiLangeberg anamanzi awaneleyo anokuhlala kude

kube sekupheleni kuka-Okthoba 2018, kungakhathaliseki nokuba azikhange zine iimvula.

Ingxelo yabakwa(CBRWUA) ibonisa ukuba ngokuqikelwa kweemvulwa ezinokuna kubukwe nendlela esiyilawula ngempumelelo ngayo imithombo yethu yamanzi, uSuku lokuPhela kwaManzi kuMasipala waseLangeberg, alusokuze lufike kulo ka2018.

Ngosekezelwe koluhlolo, iKomiti kaSodolophu iya yanesicelo sokuba imiqathango yokusetyenziswa kwamanzi ihlenga-hlengiswe ukuya kwinqanaba lokuqala.

U-Izak van der Westhuizen, uMolathisi: weNkozo zobuNjineli kuMasipala waseLangeberg, uchaze okokuba noxa ezi izindaba ezimnandi, "kufuneka sikhumbule ukuba sisajongene neyona mbalela eyakhe yambi kwinkulungwane yeminyaka kwaye iDama laseBrandvlei lisame kumanqanaba amagxongo amalunga nomyinge we-10 ekhulwini. Ukungo amanzi kufuneka kuhlala kuyinto ephambili emakhaya kanye nakumashishini.

Amanyathelo emiqathango yokusetyenzisa kwamanzi kwiNqanaba loku-1 liquka:

- Ukunkcenkceshela kweegadi kungenziwa iiyure zibembini kuphela ngemini phakathi kwentsimbi yesi-18Hoo-20Hoo, kube kabini ngeveki.
- Isohlwayo ngokuvisisana neCandelo lika-75 A

loMthetho weeNkqubo zikaMasipala, nesingumyinge wama-50 ekhulwini sizakongezwa kwi-akhawunti yakho yentlawulo yenyanga ngokusebenzia uqhithise kwiiolitha ezi-30 zamanzi owasebenzisele indlu ngenyanga, aziyikubandakanywa izindlu zabahlwempuzekileyo.

- Kumabala ezemidlalo kuphela kungankcenkceshela amabala ebhola eqakamba, okuluhlaza kumabala egolufa, okuluhlaza kumabala ebhola egenqwayo oku kuvumelekile iiyure ezimbini ngosuku, kubekabini ngeveki, ngaphandleni kokuba usebenzisa awakho amanzi.

- Akuvumulekanga ukunkcenkceshela kwamaphahla kwaneendlela ezingena iimoto. Kunye nokuhanjwa kweemoto kusetyenzisa imibhobho yegadi akuvumulekanga. (Oku kuchaphazela amashishini asebenza ngokusethethweni nasebenza isigxina nomsebenzi wavo ikukuhlamba iimoto.)

- Konke ukwaphulwa komthetho kufuneka kubikiwe kwiziko lokutsalela iminxeba kwaye kulandeliswe ngokukhawuleza ngabanyanzelisi bomthetho.

- Nabani na owaphula lemiqathango uzakuba netyala lokwaphula umthetho kwaye uza, akufunyanwa enetyala, uyakuba nesigwebo sentlawulo ngokupapashwa kwayo kuluhlu lweentlawulo zonyaka.

Waterbeperkings verminder na vlak 1

Somerreën bring hoop vir Langeberg-inwoners

Vlaki-waterbeperkings sal van 1 April van toepassing wees op inwoners se munisipale rekening en meterlesings.

Met die welkom somerreën wat in die Langeberg-omgewing die afgelope tyd geval het asook die afname van besproeiing uit die Brandvleidam, is die situasie rakende waterbeperkings vir elke dorp heroorweeg.

Die opgaardamme in al vyf dorpe, waar die watervlek in Januarie 50% was, is nou 100%.

Die vermindering na die vraag van water het die watervoorsiening wat van die Brandvleidam af kom tot 24 Mei verleng, waarna die laaste 7 miljoen m³ water, as dit nodig is, vir drinkdoeleindes uit die dam getrek gaan word.

'n Bepaling wat deur die Langeberg-ingenieursdepartement en die Sentrale Breederivier-waterverbruikersvereniging gedoen is, spesifieer dat die opgaardamme in die Langeberg genoeg water tot Oktober 2018 sal hê, al gaan dit nie reën nie.

Volgens die voorspelde reënval en die doeltreffende bestuur van waterbronne het die waterverbruikersvereniging in 'n verslag gestipuleer dat Dag Zero nie in 2018 vir die Langeberg-munisipaliteit gaan aanbreek nie.

Gegrond op dié verslag het die burgemeesterskomitee die waterbeperkings na vlak 1 verminder.

Izak van der Westhuizen,

direkteur: ingenieursdienste van die Langeberg-munisipaliteit, sê dit is goeie nuus, maar waarsku: "Ons moet onthou dat ons steeds in die ergste droogte van die eeu is en dat die Brandvleidam se watervlek steeds kritiek laag is met net 10%. Om water te bespaar bly een van die belangrikste prioriteite van al die huishoudings en ondernemings.

Die vlaki-waterbeperkings sluit in:

- Natmaak van tuine kan net vir twee uur twee keer per week tussen 18:00 en 20:00 geskied.

- Volgens Artikel 75A van die Wet op Munisipale stelsels kan jy met 50% beboet word as jou waterverbruik die maandelikse verbruik van 30kl per huishouding oorskry. Die wet geld nie vir deernishuishoudings nie.
- Die natmaak van kolfblaai, gholfsetperke en rolbalbaan is toegelaat vir twee uur per dag twee keer per week, behalwe as daar van eie waterbronne gebruik gemaak word.

- Geen afspruit van dakke of opritte of was van motors met 'n tuinslang word toegelaat nie. Dié reël is nie toepaslik vir motorwasserye nie.

Oortreding moet so gou as moontlik by die inbelsentrum gerapporteer word sodat wetstoepassers dit kan opvolg.

Enige persoon wat hulle nie aan die waterbeperkings steur nie, maak hulle skuldig aan 'n oortreding wat tot 'n boete en selfs tot vervolging kan lei, soos gepubliseer in die jaarlikse tariewelys.

Langeberg se 2018-'19-begroting in 'n neutedop

Die uitvoerende burgemeester, rdh. Henry Jansen, het die konsepbegroting 27 Maart 2018 ter tafel gelê. Dié begroting lê klem op die behoeftes van armlastiges en is gefokus daarop om dienste in die onderontwikkelde gebiede van die Langeberg-munisipaliteit te voorsien. Die begroting konsentreer daarop om oor die volgende drie jaar die paaie in die sentrale sakegebied, asook in voorheenbenadeelde gemeenskappe, op te gradeer.

Die begroting vir die mediumtermynuitgawebegrotingsraamwerk (MTUBR) vir 2018-'19 tot 2020-'21, die geïntegreerde ontwikkelingsplan (GOP) en alle ander aspekte van die begrotingsbeleid is aan die raad voorgelê in lig van die talle verwikkelinge in ons land, die provinsie en ons eie munisipaliteit.

Oorsig van die begroting

Die munisipaliteit se begroting vir 2018-'19 beloop R 767,655 miljoen en is as volg saamgestel:

- 'n Kapitale begroting van R 88,111

miljoen.

- 'n Bedryfsbegroting van R 679,543 miljoen.

Die uitgawe- en inkomstekategorieë in die primêre bedryfsbegroting weerspieël die opeenvolgende jaartot-jaar begrotingswaardeverhoging (geskatte 2018-'19-begroting teenoor die aangepaste 2017-'18-begroting).

Inkomste- en tariefverhogings

Die erfbelastingstariewe sal met 8% in die rand verhoog vir residensiële erwe en met 10% in die rand vir besigheidserwe.

Elektrisiteit 6,84%

Water 8%

Riool 13%

Sanitasie 8,5%

Verhogings in uitgawes

Salarisse en lone (inkremente en gemeenskapsbydraes ingesluit): 7,5%

Ander uitgawes, ingesluit herstelwerk en onderhoud: -13,89% (die implementering van regtrekking onder die Municipale Standaarddiagram van Rekeninge (MSDR); uitgawes

geskuif na uitgekontrakteerde dienste)

Kapitale uitgawes: 26,65%

Grootmaataankope:

Water: 5,3%

Elektrisiteit: 7,32%

Die geprojekteerde verhoging is die gevolg van 'n kombinasie van faktore, soos die relatief lae generiese groei in kern tariefgegronde dienste, operasionele doeltreffendheid en beleide wat verseker dat inkomstes optimaal en volhoubaar aangewend word.

Die finansiering van kapitale uitgawes uit eie geld (kapitaalvervangingsreserwes) beloop R 38,244 miljoen. Hierdie bedrag is 'n verhoging op die aanvanklike vooruitskattingen en is geoormerk om kapitale beleggings op infraskruktuur in lyn met spesifieke GOP-behoeftes aan te spreek. Daar word voorsien dat hierdie uitgawes bekostigbaar sal wees oor die drie jaar MTUBR-tydperk.

Kapitale beleggingsfinansiering (uitgesluit eie finansiering) maak 'n

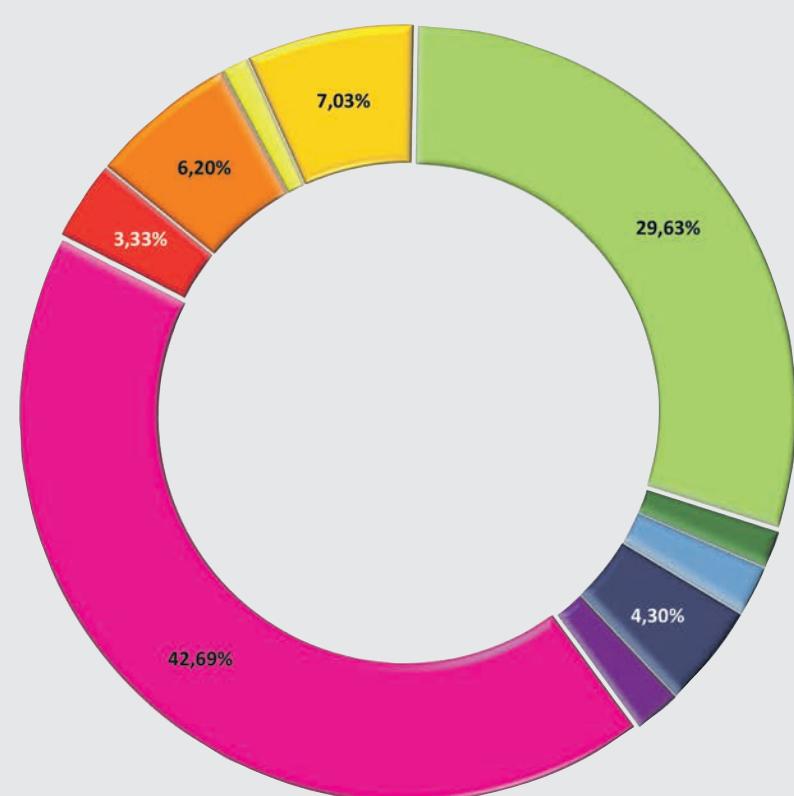

aansienlike gedeelte (56,60%) van die munisipaliteit se kapitale begroting vir 2018-'19 uit. Dit bestaan hoofsaaklik uit geleende geld en geld van die munisipale infrastruktuurtoekenning (MIT).

Hierdie geld gaan aangewend word om spesifieke infrastruktuur te ontwikkel, inlyn met die GOP.

Jansen het gesê hierdie begroting moet geensins oor die syfers gaan nie, maar dat dit 'n plan moet wees wat die lewe van mense op 'n betekenisvolle wyse aanraak.

"Ja, die begroting moet verligting bring aan die armlastige gemeenskappe in hierdie munisipaliteit. Die gemeenskap moet ons meet aan die wyse waarop die begroting aangewend word," het hy afgesluit.

Die volle besonderhede van die raadsbesluit, kortings op eiendomtariewe en die besonderhede van die vasgestelde tariewe, is beskikbaar op die munisipaliteit se webtuiste by www.langeberg.gov.za, by openbare biblioteke en munisipale kantore in die streek.

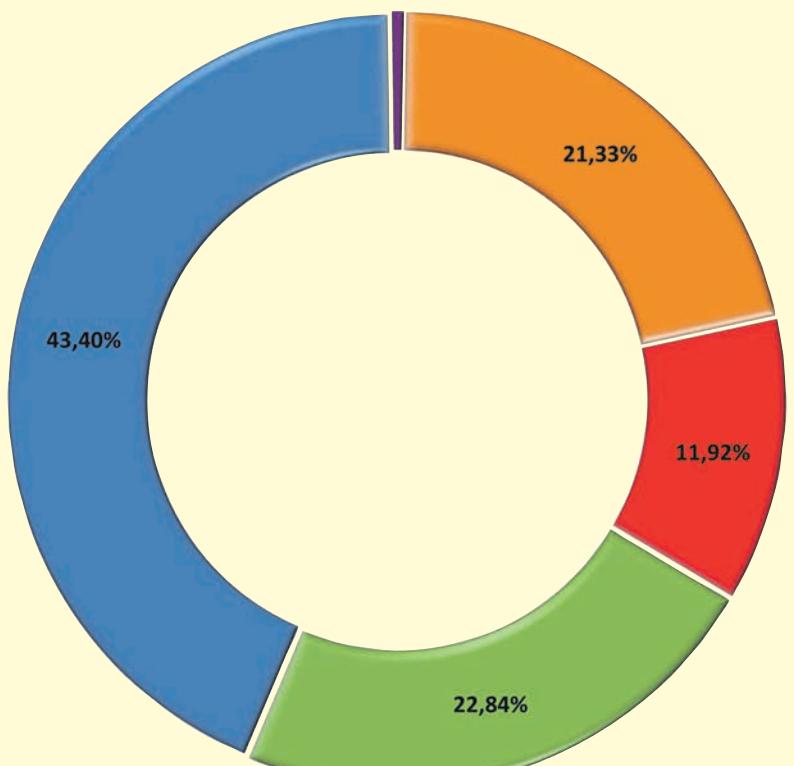

EXPENDITURE BY TYPE:

District Municipality	0,51%

REVENUE BY SOURCE:

THE GRAPH BELOW SHOWS THE FUNDING OF THE 2018/19 BUDGET PER REVENUE SOURCE EXPRESSED AS A %

Langeberg's 2018-'19 budget in a nutshell

The Executive Mayor, Alderman Henry Jansen tabled the draft budget on 27 March 2018.

This budget is pro-poor and emphasises providing services to the underdeveloped areas of the Langeberg Municipality. The budget will concentrate on upgrading our roads both in the central business districts and the previously disadvantaged communities over a period of three years.

The budget for the medium-term revenue expenditure framework (MTREF) 2018-2019 to 2020-2021, the integrated development programme (IDP), and all budget-related policies have been presented to council in the light of many developments in our country, province and our municipality.

The budget overview

The municipality's 2018-2019 budget amounts to R767,655 million, made up as follows:

• Capital budget of R88,111 million

• Operating budget of R679,543 million
The primary operating budget revenue and expenditure categories reflect the following year-on-year budget value increases (estimated 2018-2019 vs adjusted 2017-2018 budget):

Revenue/tariff increases
The tariff for property rates will increase by 8% in the rand for residential properties and by 10% in the rand for business properties.
• Electricity 6,84%.
• Water 8%
• Solid Waste 13%
• Sanitation 8,5%
Expenditure category increases
• Salaries and wages (including increments and social contributions): 7,50%
Other expenses including repairs and maintenance: 13,89% (Result of Municipal Standard Charts of Accounts (MSCOA) alignment expenditure items moved to contracted services)

• Capital Costs: 26,65%
Bulk Purchases, comprising the following:

• Water: 5,30%; and
• Electricity: 7,32%
The projected increase results from a combination of factors, such as (relatively low) generic growth to core tariff-based services, operational efficiencies and revenue-related policies aimed at optimising and sustaining all income sources.

The financing of capital expenditure from own funds (capital replacement reserve) totals R38,244 million. This amount represents an increase to originally planned values, and is earmarked to address specific infrastructural capital investment aligned to IDP focus areas. This level is considered affordable over the MTREF three-year period.

Capital investment funding, excluding own funding, represents a significant portion (56,60%) of the

municipality's capital budget in 2018-2019, and consists mainly of borrowed funds and the municipal infrastructure grant (MIG).

The above amounts are earmarked to address specific infrastructural capital investment aligned to IDP focus areas.

Jansen said this budget must not be about the numbers, but it should be a plan that will touch the lives of our people in a meaningful way.

"Yes, this budget must provide relief to the poverty-stricken communities of this municipality. The community must judge us in the manner in which this budget is implemented," he concluded.

Full details of the council resolution, rebates on property rates and particulars of the determined tariffs are available for inspection on the municipal website (www.langeberg.gov.za) and at all public libraries and municipal offices in the municipal area.

Uhlahlo lwabiwo-mali luka2018-2019 IwaseLangeberg ngamafutshane

USodolophu weSigqeba, uAld. Henry Jansen utha thaca uhlahlo lwabiwo-mali ebeluyilwa ngomhla we27 Matshi 2018. Olu hlahlo lwabiwo-mali lulungiselelw abantu abahluphekileyo futhi lugxininisa ekubonelelw eni ngeenkonzo kwiindawo ezihluphekileyo ezikuMasipala waseLangeberg. Uhlahlo lwabiwo-mali luzakugxila ekuphuculweni kweendlela zethu ezikwiNgingqi yeSithili saMashishini kwakunye nezo zikwindawo zoluntu alwalusakuhlupheka oku kusenziwa kwisithuba seminyaka emi-3.

Uhlahlo lwabiwo-mali IwaPhakathi Nonyaka-mali ka-2018/2019 to 2020/2021, Isingcwangciso Esinxibeleleneyo Sophuhliso (i-IDP), nayo yonke iMigaqo-Nkqubo Ephathelene noHlahlo Lwabiwo-mali zibekwa phambi kweBhunga emva kokubonakala kwezinto ezininzi eziye zeneka kwilizwe lethu, kwiPhondo kwakunye nakumasipala wethu.

IIMBALASANE NGOHLAHLO LWABIWO-MALI

Uhlahlo-lwabiwo mali lukamasipala yonyaka mali ka- 2018/19 yi- R 767, 655 yezigidi eyenziwe ngoluhlobo,

• R 88, 111 yezigidi iyakusetyenziselwa ukuthenga izinto ezihlala ixesha elide,

kunye
• ne-R 679,543 yezigidi ezakusetyenziselwa ukusebenza kukamasimapala.
Uhlahlo Lwabiwo-mali Lokusebenza kwingeniso- amahlelo engeniso nenkcitho abonisa ukunyuka kwamaxabiso unyaka nonyaka (uthelekelelo luka 2018/2019 nxamnye no 2017/2018):

Ingeniso/ukunyuka kweerhafu Irhafu yezaqhiwo izakunyuka nge-8% kwirandi kwizakhiwo zokuhlala abantu ize inyuke nge-10% kwirandi kwizakhiwo zamashishini.
• Umbane uya kunyuka nge-6,84%;
• Amanzi azakunyuka nge-8%;
• Linkunkuma yonyuka nge-13%
• Linkonzo zogutuulo nge- 8,5%
Izinga lokunyuswa kwamahlelo awohlkeneyo eenkcitho
• Ngakwicala leenkitho ukonyuswa kuza kwensiwa ngoluhlobo:
• Imivuzo yabasebenzi (kuquka nokunyuswa kwayo) 7,5%
• Ukulungiswa kwezinto -13,89% (ibangelwa kukulungelelaniswa kwenkcitho yemSCOA izinto zifakwa phantsi kweKhontrakthi Yabanikezelinkonzo)
• Inzala kwimali echithwa kwizinto

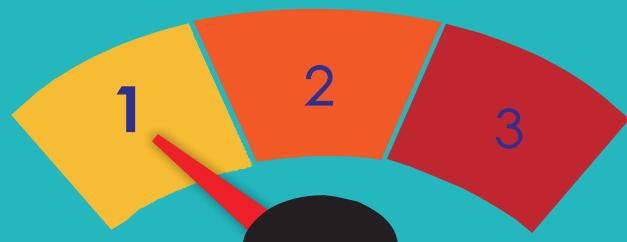

ezihlala ixesha elide 26,65%
• Ukuthengwa Kwezinto Ezinkulu - Amanzi: 5,30%
- Umbane: 7,32%
Oku kunyuka kuboniswayo sisiphumo sokudityaniswa kwezinto ezifana ukukhula nokwenza izinto ngokuphumelelayo kwiinkonzo ezingundoqo ezsiseko-serhafu, ukusebenza ngokupheleleyo kunye nemigaqo-nkqubo ephathelene nengeniso nethi ijolise ekunyuseni nasekuzinziseni yonke imithombo yengeniso. Ukufakwa kwemali iyakusetyenziselwa ukuthenga izinto ezihlala ixesha elide nesuka kumasipala(CRR) ixabisa i-R 38, 244 yezigidi. Esi sixa-mali sibonakalisa ukufunquka kwisixa-mali besicityiwe ngaphambili kwaye sizakusetyenziselwa ukuhlangabezana neenkonzo ezingundoqo zikamasipala ezihlala ixesha elide nezilungelelaniselwe ukuba zisebenze ngokokucaciswe kwi-IDP. Ezi zona zibonakala zinakho ukwenziwa kwisithuba sohlahl-lwabiwo mali (MTREF) yeminyaka emithathu. Utalo-mali kwizinto ezihlala ixesha elide ngaphandle kwesipho sikaRhulumente yinxalenye enku

malunga ne-(56,60%) yoHlahlo lwabiwo-mali lukaMasipala Iwezinto Ezihlala Ixesha Elide luka-2018/19 luza kuquka ubukhulu becalo Imali Esuka Ngaphandle kunye nemali Yesibonelelo yooMasipala yeeNkonzo Ezingundoqo (i-MIG).

Imali ekhankanywe ngasentla iyakusetyenziselwa ukuhlangabezana nezinto zophuhliso ezikwi-IDP.

UAld. Henry Jansen, uSodolophu weSigqeba sikaMasipala waseLangeberg, utha oluhlahlo-lwabiwo mali akufunekanga lube malunga namanani kodwa kufuneka lube sisigcwangciso esiza kuchukumisa ubomi babantu bethu ngendlela elulutho. "Ewe, oluhlahlo-lwabiwo mali kufuneka lube sisibonelelo sokukhulula uluntu oluthwaxa yndlala kulo masipala. Uluntu kufuneka lusewabebe ngokwendlela esilusebenzise ngalo oluhlahlo lwabiwo-mali." wavalelisa.

Linkcukacha ezigcweleyo nesiqqibo sebhunga, isaphulelo kwirhafu yezaqhiwo kunye neengcombolo ngeerhafu ezmiseweyo ziayafumaneka kwabafuna ukuzihlolola kwiwebhusaythi kamasipala engu(www.langeberg.gov.za) nakuwo onke amathala-eencwadi neeofisi zikamasipala ezikulommandla.

Water Restrictions
now in effect
After 01 April 2018

Business & Residential Consumers

Save 10%

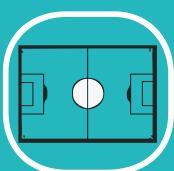

Restrictive measures

If households use in excess of 30 000 litres of water per month, they will fall into a higher water tariff bracket (50% penalty increase on normal tariffs). This excludes indigent households.

Watering of gardens using municipal water may only be done for two hours per day between 18h00 - 20h00, twice per week.

At sport fields only watering of cricket pitches, golf course greens and bowling greens is permitted for two hours per day, twice per week, unless own source of water is used. Irrigation of A-fields of sports fields are allowed for two hours per day between 08h30 and 10h30.

No hosing of roofs and driveways. And no washing of vehicles with a garden hose will be permitted. (This is not applicable to any bona fide and full-time commercial enterprises whose business it is to wash cars.)

If contraventions must be reported to the call centre and followed-up immediately by law enforcement.

Any person who contravenes these restrictions is guilty of an offence and is, upon conviction, liable to a fine as published in the annual tariffs list.

ULUTSHA 'LUZINQAKULELA' AMATHUBA ELAYISENSI YOKUQHUBA

Iqela lolutsha neliphuma kwiidolophu ezahlukeneyo kulo Mmandla kaMasipala waseLangeberg mvanje luthabathe inxaxheba kwizifundo zeLayisensi yokuQhuba, besenzela ukuba babenamathuba amahle okuqashwa.

U-Afrimat Aggregates Operations (Pty) Ltd, neyinkampani yemayini ekulendawo, bakube bebonisene noMasipala waseLangeberg, bathe baqalisa leprojekti

Injongo yaleprojekti ibikukubonelela ulutsha lwalommandla waseLangeberg ngamathuba okuqeleshwa, kwaye ngokwenza njalo, bebachobisa ngokuthi babengabantu abanokuqesheka.

Aba bathathi-nxaxheba bali-13 balandelayo baluphumelela uvavanyo lwabo ngoxa kwakusenziwa lenkqubo:

uGM Burwana; uRidowan Alfredo Davids; uDesmond Bernard uMichael Prins; uLindokhule Khuzelo; uEnslyn Olivia Adendorff; uDumisani Damane; uWill Rhyno Shaun Harmse; uPhindile Desmond Kobe; u-Elroy Finlander; uGodwin Gresham uRaben Benjamin; uBradley Danster; uKeyron Vermeulen kwakunye noLJ Khoarane. UJacobus Koert, nobemele u-Afrimat, uthet bayazingca ngabonke ababatsha nabathe bayenza bayigqiba ngempumelelo leprojekti. Futhi wanawo namazwi obulumko kwabo

bathe abaphumelela.

"Egameni lethu sisonke ndiyavuyisana nani kwaye ndibulela ngokungazenzisiyo ngokuthi nilisebenzise elithuba ekuzenzeleni inzunzo ngalo. Kwabo bathe abaphumelela esi ayisiso isiphelo, kungoku nje nilungele ngakumbi kunokuba beninjalo ngaphambili," utshilo uKoert.

USoyisile Mokweni, uMphathi-Masipala, kuMasipala waseLangeberg, uvakalise uvuyo lwakhe ngempumelelo eyenziwe ngabo

bebethatha inxaxheba. Uye wakukhankanya ukubaluleka kokuzuza izakhono ezitsha kwaye wabaxeleta ukuba kufuneka basisebenzisele ukuziphucula. "Sivuyisana nani ngokuba niyiphumelele lenkqubo yokufundela ukuqhuba. Ngoku ninamathuba okufaka icicelo zemisebenzi kwindawo zokuqhuba iimoto. Amathuba emisebenzi eyahlukeneyo avulelekile ngoku kuni, kufuneka niwasebenzise ngokumandla," utshilo uMokweni.

Ngoku, bezixhobele ngeelaiseninsi zokuqhuba iimoto zikhadi-10 kunye no-14, olu lutsha lungahamba luyokufuna imisebenzi baziqalisele ukuziphilisa.

Jongmense gryp geleentheid aan

Jongmense van dorpe in die Langeberg-munisipale gebied het onlangs 'n kursus voltooi om hul rybewyse te kry en sodoende meer toeganklik vir die arbeidsmark te wees.

'n Plaaslike mynmaatskappy, Afrimat Aggregates Operations (Pty) Ltd, in samewerking met die Langeberg-munisipalteit het dié projek van stapel gestuur.

Die doel van dié projek is om opleidingsgeleenthede vir die jongmense van die Langeberg-omgewing te skep om hulle sodoende gereed vir die arbeidsmark te maak.

Die volgende 13 deelnemers het hul rybewyse gekry: GM Burwana, Ridowan Alfredo Davids, Desmond Bernard Michael Prins, Lindokhule Khuzelo, Enslyn Olivia Adendorff, Dumisani Damane, Will Rhyno Shaun Harmse, Phindile Desmond Kobe, Elroy Finlander, Godwin Gresham Raben Benjamin, Bradley Danster, Keyron Vermeulen en LJ Khoarane.

Jacobus Koert, 'n verteenwoordiger van Afrimat, sê hulle is baie trots op die jongmense wat die kursus suksesvol voltooi het.

Hy deel ook dié raad met dié wat die kursus nie geslaag het nie: "Geluk aan almal wat dit gemaak het en dankie dat julle die geleentheid aangegryp het tot julle voordeel. Vir dié wat nie geslaag het nie: Julle is beter voorbereid as vroeër."

Die munisipale bestuurder van Langeberg-munisipalteit, Soyisile Mokweni, het sy blydskap met die suksesvolle kandidate gedeel en die belangrikheid van nuwe vaardighede beklemtoon. "Geluk met julle rybewyse. Julle het nou die geleentheid om die vervoermark te betree.

Daar is baie geleenthede vir julle beskikbaar. Gryp dit aan," het Mokweni gesê.

Met hulle kode 10- en kode 14-rybewyse kan die jongmense werkgeleenthede soek en 'n lewe in die arbeidsmark begin.

The group of participants who successfully completed the driver's course are now licensed to drive.

Youth 'seize' driver's licence opportunity

A group of youth from various towns within the Langeberg Municipal Area recently participated in a Driver's Licence course in a bid to make them more attractive to the labour market.

This initiative, by Afrimat Aggregates Operations (Pty) Ltd, a local mining company, in consultation with Langeberg Municipality, forms part of a project to provide training opportunities to youth of the Langeberg area, empowering them to become

employable.

Through the initiative the following 13 individuals passed their test: GM Burwana, Ridowan Alfredo Davids, Desmond Bernard Michael Prins, Lindokhule Khuzelo, Enslyn Olivia Adendorff, Dumisani Damane, Will Rhyno Shaun Harmse, Phindile Desmond Kobe, Elroy Finlander, Godwin Gresham, Raben Benjamin, Bradley Danster, Keyron Vermeulen and LJ Khoarane.

Jacobus Koert, a representative from Afrimat, said the company is

proud of all the youth who successfully completed the course. He also had words of wisdom for those who didn't make it.

"Congratulations on behalf of all of us and a special thank you for using this opportunity to your benefit," Koert said. "For those who failed it is not the end, you are better prepared than before."

Soyisile Mokweni, Municipal Manager at Langeberg Municipality, expressed his pleasure at participants' success. He highlighted

the importance of acquiring a new skills and told the youth to use these opportunities to their advantage.

"Congratulations on passing your driving course," he said. "You now have an opportunity to enter the freight market. Various job opportunities are now available to you, so make the most of it."

Equipped with driver's licences, such as code 10 and 14, they can now seek employment and start making a living for themselves.
