Upgrades to the Nkqubela sports ground commenced in February 2018. This will include a synthetic soccer pitch with perimeter fencing once completed.

Major upgrade for Nqkubela sports ground

Residents of Nqkubela can look forward to a state-of-the-art sports facility, as major upgrades are currently underway. Sports play an integral part in community life, and the refurbished sports ground makes it possible to implement sports programmes for Nqkubela's youth.

The R15 million project is due for completion by early 2019. The upgrades include:

- a synthetic soccer pitch with perimeter fencing,
- approximately 800m of security

walling,

- new entrance and exit gates,
- a refurbished ticket office with automated turnstile,
- upgraded changing room showers,
- team seating, paved perimeter walkway and a storm water/ground water network,
- multi-purpose court with perimeter fencing.

The sports multi-purpose surface enables different sports disciplines, eg netball, basketball, and so on. The refurbished spectator stand will make provision for disabled patrons.

Construction began in February 2018, and at present the posts for the boundary are being installed and the first 300 m is expected to be completed by mid-October. The subsoil drains and stormwater network has already been installed, and the layerwork on the soccer pitch and multi-purpose court have been completed. Building to the stand and ablution facilities is ongoing.

To date, the project has employed 17 temporary workers from Nqkubela for a period of seven months.

Opgradering vir sportterrein

Opgraderings het begin en die inwoners van Nkqubela kan na 'n ultramoderne sportterrein uitsien. Sport speel 'n belangrike rol in die gemeenskap en met dié nuwe opgraderings kan die jeug van Nkqubela verskeie sportsoorte beoefen.

Die R15 miljoen-projek gaan vroeg in 2019 voltooi wees. Dít sluit in:

- 'n Sintetiese sokkerveld met 'n buiteheining;
- 'n Veiligheidsmuur van ongeveer 800m;
- Nuwe in- en uitgangshekke;
- Die opknapping van die kaartjiekantoor met 'n nuwe draaihek;
- Nuwe opgegradeerde kleedkamers;
- Sitplekke vir spanne, geplaveide wandelpad en 'n stormwater-netwerk;
- Veeldoelige baan met buiteheining.

Met die nuwe veeldoelige baan kan verskillende sportkodes soos netbal en basketbal beoefen word. Die opgegradeerde pawiljoen maak ook voorsiening vir gestremde ondersteuners.

Konstruksie het in Februarie 2018 begin en tot op hede is die stutte vir die heining aangebring en die eerste 300 m van die heining gaan dié maand voltooi wees.

Die ondergrondse stormwaterpype is ook al aangebring en die voorbereiding vir die veedoelige baan en die sokkerveld is ook al voltooi. Verder is konstruksie aan die pawiljoen en kleedkamers ook in volle gang.

Tot op datum het die projek 17 kontrakwerkers van Nkqubela vir sewe maande in diens geneem.

Die opgraderingsprojek by die Nkqubela-stadion sluit opknapping van die pawiljoen met nuwe sitplekke in.

Langeberg Municipality to compete at the National Govan Mbeki Awards

Langeberg Municipality was among the big winners at the 2018 Western Cape Govan Mbeki Awards held on 31 August at the Westin Hotel in Cape Town. The municipality was crowned winner of the Best Integrated Residential Development Programme Project (IRDP) for the McGregor Housing project. Winners of the Provincial Awards go on to compete against other provinces at the National Govan Mbeki Awards scheduled for November this year.

"The people of McGregor and Langeberg Municipality now have an award winning development they can be proud of," said Mr SA Mokweni, Municipal Manager of Langeberg Municipality. "Winning this award is an absolute honour for our municipality and we look forward to seeing how we match up against the competition at the National Govan Mbeki Awards."

Established in 2008, the Govan

Mbeki Awards are an annual event which recognises outstanding performance in the delivery of housing projects. The aim is to encourage municipalities to use innovative technologies to construct housing units that take into account concerns such as climate change, energy and water conservation.

The McGregor IRDP Housing Project is a great example of how the different spheres of government, private sector and the local community can cooperate in to realise a sustainable, practical and aesthetically pleasing project. A truly integrated residential development, the project provides 496 subsidised houses, 15 GAP and 16 market-value erven as well as community facilities. Some units were also innovatively designed to address issues of housing for the disabled.

The project was implemented within budget, as per Integrated

Residential Development Programme (IRDP) policy. The Department of Human Settlements availed additional funding for the Heritage requirements. This resulted in a unique housing development, standing proudly right next to a high-income neighbourhood, and befitting the heritage character of McGregor.

Continuous engagement with all role-players, especially the local

beneficiaries, enabled the project to be completed within the budget and permissible time frames.

Families from the informal settlement, surrounding farms and backyard dwellers now have a well constructed house in a well-thought-out development, close to amenities and community facilities. It is also the first Breaking New Ground (BNG) housing project for McGregor's people since 1998/99.

Langeberg-munisipaliteit ding in die nasionale Govan Mbeki toekennings mee

Langeberg-munisipaliteit was een van die Wes-Kaap-wenners van dié jaar se Govan Mbeki-kompetisie.

Dié kompetisie is 31 Augustus by die Westin-hotel in Kaapstad gehou. Langeberg-munisipaliteit het die prys vir die beste geïntegreerde residensiële ontwikkelingsprogram (IRDP) vir sy McGregor-behuisingprojek ontvang. Al die provinsiale wenners gaan nou teen mekaar meeding in die nasionale kompetisie wat in November gehou gaan word.

"Die gemeenskap van McGregor en Langeberg-munisipaliteit het nou 'n wenprojek waarop almal kan trots wees. Om dié prys te wen, is 'n eer vir die munisipaliteit en ons sien daarna uit om teen ander provinsies ons staal by die nasionale Govan Mbeki-kompetisie te wys," het mn. S.A. Mokweni, munisipale bestuurder

Die bekroonde McGregor-behuisingprojek bestaan uit 418 eenhede, waarvan altesaam 198 duplekseenhede is en 220 semi-aangehegte enkel-eenhede.

van Langeberg-munisipaliteit gesê.

Die Govan Mbeki-kompetisie het in 2008 begin en is 'n jaarlikse instelling

wat suksesvolle behuisingprojekte vereer. Die doel is om munisipaliteite te motiveer om tegnologie aan te wend om huise te bou wat die klimaatsverandering en waterbesparing in gedagte hou.

Die McGregor-geïntegreerde residensiële ontwikkelingsprojek is 'n goeie voorbeeld van hoe verskillende departemente van die regering, die private sektor en die plaaslike gemeenskap kan saamwerk om 'n volhoubare behuisingprojek van stapel te stuur. Dié projek maak voorsiening vir 496 gesubsidieerde huise, 15 oorbruggingshuise en 16 markverwante erwe sowel as gemeenskapsgeriewe. Van die huise is ook vir gestremdes ingerig.

Dié projek was geïmplementeer met die beskikbare geld van die IRDP-beleid. Die departement van menslike

nedersetting het ook bykomende geld voorsien. Die geld het daartoe gelei dat dié behuisingontwikkeling nie net uniek is nie maar ook die erfenis en karakter van McGregor vasvang. Die nuwe ontwikkeling is langs 'n hoë inkomste buurt geleë.

Die goeie verhouding tussen al die rolspelers en veral die plaaslike begunstigdes het daartoe gelei dat dié projek binne die bepaalde tyd en in die begroting voltooi is.

Families van die informele nedersetting, plaas- en agterplaasbewoners het nou die geleentheid om in 'n goedgeboude huis en goedbeplande ontwikkeling wat naby aan al die geriewe is, te bly. Dit is ook die eerste Breaking New Ground (BNG)-behuisingprojek vir die McGregor-gemeenskap sedert 1998/99.
