## ROADS REMAIN A PRIORITY

Langeberg Municipality is aware of the condition of the roads within our municipal area and has been working on solutions to attend to the matter.

A Pavement Management System was developed in 2012 categorising the condition of the roads from very good to very poor. The total capital budget required at that stage for resurfacing and rehabilitation was as follows:

Resurfacing: R 62.5 million (base date 2012)

Rehabilitation: R57.1 million (base date 2012)

Due to the huge backlog in the funding for the resurfacing and rehabilitation of our roads, it results in the increase of potholes,

especially during the rainy season.

One of the solutions to address the problem is the pothole repair programme that currently has mapped out priority roads in all towns. Any new complaints received over the next couple of weeks will be added to the programme but not repaired immediately.

"Town central roads are our priority for the next month. We are trying to keep up with the many road-related complaints received. What makes this exercise rather challenging is the re-emerge of potholes due to the poor weather we are currently experiencing," said Maynard Johnson (Director Engineering Services).

## **Solutions**

The short-term solution is to repair the potholes in the towns.

Long-term solutions the municipality we have discussed include:

- Contracting a service provider to assist with pothole repairs
- Ensure sufficient quality material is purchased (Cold mix asphalt and rubber bitumen patches)
- Reseal or rebuild a few identified main streets in the various towns that require additional work (Capital budget allowing)

## **Upgrading of roads**

One of the big road projects identified for the 2021/2022 financial year is the upgrading of roads and stormwater in Nkqubela, Robertson. The project cost is valued at R 27 937 44 and will take place over a contract period of 18 months. The gravel roads that will be upgraded include Ekuphumleni-, Ntonzina-, Nthuthise-, Dibandlela-, Moyani-, Mpolweni-, Kuyasa-, Basahe- and Entlango Street.

## **Report**

Langeberg Municipality urges the community to log complaints of potholes, uneven road surfaces, damaged pavements and road signage

President Cyril Ramaphosa has announced that people between 18 to 34 will be able to get vaccinated from 1 September 2021. This is in addition to the other age groups eligible, but older age groups will still be made a priority.

We encourage 18 to 34-year olds to get vaccinated from 1 September in order to ensure a safer environment for all.

More information regarding the vaccination process/registration for this age band will follow in the upcoming weeks.
