ANALOGUE TV WILL BE SWITCHED OFF ON 31 MARCH 2022

On 31 March 2022, existing analogue television signals will be switched to digital signals. Viewers will then require a decoder to watch channels such as SABC and E-TV. Those who already have satellite dishes and decoders do not need to make any changes. Anyone who has access to electricity, owns a TV and earns less than R3 500 per month, may apply for a free decoder installation package.

What is digital migration?

It is the process of moving from analogue to digital broadcasting. It is often also called digital switchover. Digital migration or switchover is a technology change from the old analogue system to a modern digital system. It is done to deliver a higher-quality viewing experience.

What do I need to migrate to digital television?

You need a digital decoder. It is also known as a Set Top Box (STB), or in short just a decoder. The device decodes digital signals and enables content to be displayed on your television set. Digital signals are transmitted in different ways:

- Digital Terrestrial Television (DTT) uses transmitters on the land, for which you need a TV aerial antenna and a decoder.
- Satellite Direct to Home (DTH) uses a satellite in space, for which you need a satellite dish and a decoder.

If I already use DSTv, OpenView or StarSat, do I still need another decoder?

No, unless you want to view the additional channels offered on the DTT. DSTV, OpenView and StarSat already broadcast digital signals via satellite.

Is it necessary to buy a new television set to receive DTT signals?

No. All old, analogue TV sets can receive DTT signals, provided it is connected to a decoder.

What is integrated digital television?

It is now possible to buy a TV set with a built-in decoder. This is called an integrated digital television (IDTV). An outdoor UHF aerial still needs to pick up the terrestrial signal before the IDTV can decode and display a picture. These television sets carry the "Go Digital" mark. Please note that a "digital ready" or "HD ready" TV cannot receive digital signals without a decoder. Look for the "Go Digital" mark, or the "DVB-T2" mark to confirm that a TV is indeed an IDTV.

What equipment is needed for DTT?

You need a working television set and a decoder (like DSTV or OVHD). As an alternative, you can also get an IDTV, if you live in an area that has digital terrestrial network coverage.

Will I need to pay a monthly subscription fee, as for DSTv?

No, if you use a DTT decoder, or a DTH free-to-air decoder, it is free. OpenView is free to air, and you only pay once-off for your decoder and installation.

If, however, you prefer the commercial decoders of DSTV and StarSat, you will have to pay the subscription fee that they charge as your preferred service provider. As required by the law, everyone must also continue to pay the annual TV licence fee for every TV set they own.

Who qualifies for a subsidised decoder?

The government will provide free decoders to five (5) million poor, TV-owning households. The requirements to qualify for the subsidy are:

- You must be a South African citizen, with a South African Identity Document (ID)
- Poor, TV-owning households earning R3500 or less, or receiving a social grant
- Households must own a functioning TV set
- Households already covered by the SABC concessionary TV licence scheme.
- South Africans living in border regions, or in the area that surrounds the SKA in the Northern Cape.

Households with an income more than R3500 per month

Households with earnings more than R3500 per month must purchase their own decoders. DSTV, OpenView and StarSat all decode digital signals. Government decoders are not available on the market yet.

Digital televisions bearing the "Go Digital" mark are however available and suitable to broadcast DTT channels without the need for an additional decoder.

If I have three TV sets in my house, will I need three decoders?

Yes, every TV set needs a separate decoder.

For more information and assistance call 0860 736 832 or send a WhatsApp message to 072 196 8368.

REPORT YOUR SERVICE COMPLAINTS

The Langeberg Municipality has a 24 hour, seven-day-a-week Emergency and Customer Care Call Centre that has been in operation for more than a decade.

What type of complaints can be reported?

To speed up service delivery in your ward, the following type of complaints can be reported directly to the call centre:

- *Water and Sanitation Services*
- *Streets and Storm Water*
- *Electricity Services*
- *Environmental Services*

How to report a complaint?

- Call: 0860 88 1111 / 023 615 2219
- WhatsApp: 065 211 7822
- E-mail: complaints@langeberg.gov.za

MELD JOU DIENSKLAGTES

Die Langeberg-munisipaliteit het 'n 24-uur-noodsentrum vir noodsituasies en klantediens wat al langer as 'n dekade in werking is.

Watter soort klagtes kan aangemeld word?

Om die dienslewering in u afdeling te bespoedig, kan die volgende soort klagtes regstreeks by die inbelsentrum aangemeld word:

- *Water- en riooldienste*
- *Strate en stormwater*
- *Elektrisiteitsdienste*
- *Omgewingsdienste*

Hoe moet ek 'n klagte aanmeld?

- Skakel: 0860 88 1111 / 023 615 2219
- WhatsApp: 065 211 7822
- E-pos: complaints@langeberg.gov.za

XELA ISIKHALAZO SAKHO NGENKONZO

UMasipala waselangeberg uneZiko elisebenza iiyure ezingama-24, iintsuku ezisi-7 zeveki, lokuTsalela Iminxeba yoNgxamisekileyo neliKhathalela Abathengi, nelisele lisebenze ngaphezu kweminyaka elishumi.

Hlobo luni lwezikhalazo ezinokuxelwa?

Ukukhawulezisa ukuhanjiswa kweenkonzo kwiwadi yakho, ezintlobo zezikhalazo zilandelayo zingaxelwa nqo kwiziko lokutsalela iminxeba:

- *Iinkonzo Zamanzi Nogutyulo*
- *Izitalato naManzi Emvula*
- *Iinkonzo zombane*
- *Iinkonzo zokusiNgqongileyo*

Usixela njani isikhalazo?

TAKE SWIFT ACTION AGAINST DIARRHOEAL DISEASE

KLIK HIER OM ARTIKEL IN AFRIKAANS TE LEES

COFA APHA UFUNDE NGESIXHOSA

The most severe threat posed by diarrhoea is dehydration. During a diarrhoeal episode, water and electrolytes (sodium, chloride, potassium and bicarbonate) are lost. Dehydration occurs when these losses are not replaced.

All through the year Western Cape Health and partners help parents to boost the health of their children. Now, the Department asks that parents and caregivers take swift action to protect young children if they get diarrhoea.

If your child has diarrhoea (a runny tummy) or vomits, you must quickly help them to drink fluids.

If the child does not get better or if you notice danger signs, you must take the child to the hospital immediately.

How can you help?

- Prevent diarrhoea by making sure you and your children wash hands regularly. Keep surfaces in the kitchen clean by using warm water and soap.
- If your child has a runny tummy or vomits, you must help your child **to avoid**

dehydration. Do as follows: Boil a litre of water and let it cool down. Mix it with eight teaspoons of sugar and half a teaspoon of salt. Give your child small sips of the solution.

- If the child vomits the solution, wait five minutes, and give more small sips of the solution.
- Act on warning signs! Get medical help immediately if there is blood in the child's stool/diaper, if the child has quick, shallow breathing, if the child does not feed or vomits everything, or if your child stares into the distance and is not as alert as usual.

"Because children's bodies are small, having a runny tummy or vomiting can have a major impact on them. You have to quickly help them rehydrate by giving them the sugar salt solution," says Sr Roenell Balie

who is part of the team coordinating child health for Western Cape Health in the Cape Winelands.

With the help of non-governmental organisations Western Cape Health raises awareness about diarrhoeal disease.

Bottles and sachets with the dry ingredients that you should mix with water and drink to avoid dehydration, are also distributed in communities. "Remember, you can make this at home.

Do not only rely on the sachets that are distributed," says Balie. "Young children who are up to date with routine immunisation, and who get assistance with nutrition and other services from our clinics can more easily ward off diseases like diarrhoeal disease. Please make use of our services."

MUNICIPAL NOTICES

PUBLIC NOTICE CALLING FOR INSPECTION OF THE FIRST SUPPLEMENTARY VALUATION ROLL 1 JULY 2021 - 30 JUNE 2026 AND LODGING OF OBJECTIONS

Notice is hereby given in terms of Section 49(1) (a) (i) read together with Section 78(2) of the Local Government: Municipal Property Rates Act, 2004 (Act No. 6 of 2004), hereinafter referred to as the "Act", that First Supplementary Valuation Roll for the Financial years (1 July) 2021 to (30 June) 2026 is open for public inspection during office hours from 8 February 2022 till 18 March 2022 at all Municipal offices and Libraries.

In terms of Section 49(1)(a)(ii) of the Act, any property owner or other person who wishes so, may lodge an objection with the Municipal Manager in respect of any matter reflected in, or omitted from the valuation roll during the period 8 February 2022 till 18 March 2022.

Objections may only be lodged in respect of properties listed in the Supplementary Valuation Roll. The owners of these properties will be notified of their valuations in writing at the postal address currently held on the municipal's database.

Attention is specifically drawn to the fact that in terms of section 50 (2) of the Act, an objection in terms of subsection 50(1) (c) of the Act, must be in relation to a specific individual property and not against the valuation roll as such. Please note that an objection form must be completed per property.

The prescribe form for the lodging of an objection is obtainable at all the Municipal offices or Libraries. The completed objection forms can be handed in at any Municipal Office or posted to:

The Municipal Manager, Langeberg Municipality, for attention: The Manager: Town Planning, PO Box X2, Ashton, 6715 or e-mail to: BuildingControl@langeberg.gov.za

General Enquiries

Ashton: Ms. Y Nogaga

Bonnievale: Ms. C Joubert

Montagu: Ms. W Wiese

McGregor: Ms. L Cupido

Robertson: Ms. L van Tonder

Please take note that, under no circumstances will late objections be accepted.

For any administrative enquiries please contact Mr Kobus Brand (023 614 8000).

INVITATION TO REGISTER AND TO UPDATE DETAILS ON THE CENTRAL SUPPLIER DATABASE (CSD)

In terms of the Langeberg Municipality Supply Chain Management Policy, the municipality must have a database of providers of goods and services.

However, the Langeberg Municipality is currently using the Central Supplier Database (CSD) for all business with prospective suppliers.

Therefore the Langeberg Municipality cordially invites all prospective suppliers of goods and services to self-register on the Central Supplier Database (CSD) website.

The Langeberg Municipality reserves the right to procure goods and services only from the suppliers registered on the Central Supplier Database (CSD).

Existing suppliers and service providers are required to update their details and documentation on the CSD on a regular basis.

For further information, feel free to contact Mr Allister Regue during office hours, at 023 615 8000 or email: aregue@langeberg.gov.zaASA

MID-YEAR REPORT 2021/2022

The Langeberg Municipality has passed the middle of its 2021/2022 financial year and most of its capital projects are well on track. These projects are focused on achieving the goals set out in the Integrated Development Plan (IDP).

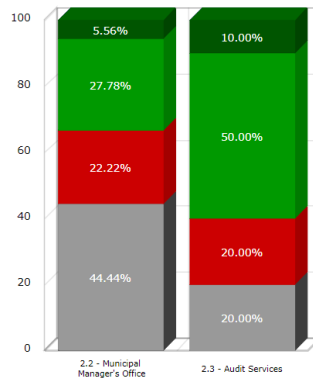

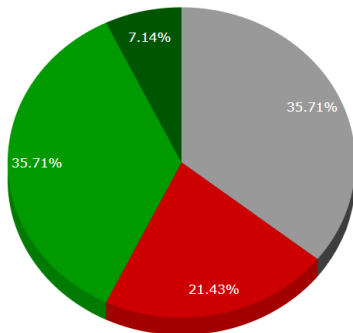

Capital projects are designed to upgrade and improve infrastructure within the municipal area and also make provision for the implementation of future developments. The graphs below show the progress each directorate has made with their projects as set out in Langeberg's 2020/2021 budget.

The pie chart on the left indicates the directorate's progress and the bar chart on the right indicates the progress per department within that directorate.

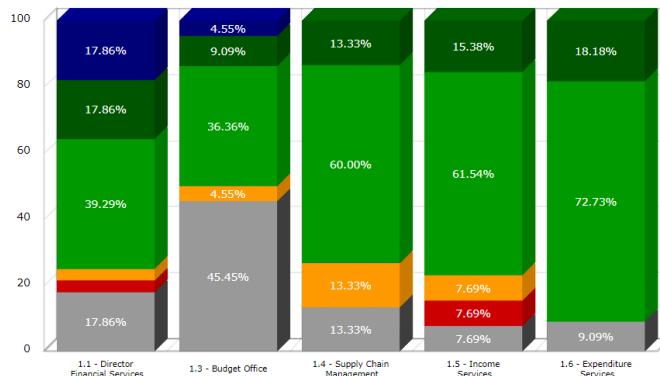

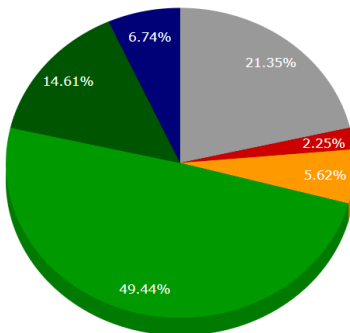

The Langeberg Municipal Budget 2021/2022 and other budget-related documents can be viewed on the municipal website (www.langeberg.gov.za)

HIKING TRAILS IN THE LANGEBERG AREA

McGREGOR

The village is known for its several hiking trails but none is as well-known as the Boesmanskloof trail. The trail passes through the Riviersonderend Conservation Area and links the towns of McGregor and Greyton.

MONTAGU

Known as the hiking and rock climbing paradise of the Langeberg. Four hiking trails and a couple of scenic short walks are just waiting for you. Montagu also offers a wide variety of fauna and flora along the hiking routes.

ROBERTSON

Home to the Arangieskop hiking trail, which many refers to as the "Kilimanjaro of the Cape", and likened to the Otter Trail for its splendour. The Arangieskop trail stands as a completely unique hiking experience.

VACCINATION REMAINS OUR BEST DEFENCE AGAINST COVID-19

The Western Cape has officially exited the fourth wave of COVID-19. However, it remains important to get as much protection as possible during this period.

Vaccination - Vaccines remain our best defence against COVID-19. It is available to all persons 12 years and older.

Booster Shots - A booster dose increases your immune system and prevents severe illness. It is advisable to get yours. Do not wait to get a telephonic reminder, be proactive. Visit a vaccination site if you had the J&J vaccine two (or more) months ago, or the second Pfizer dose at least six months ago.

Immuno-compromised individuals who already had an additional vaccine dose may take the following booster doses:

- J&J booster dose - 2 months after having received the additional vaccine dose, or
- Pfizer booster dose - 6 months after having received the additional vaccine dose.

For more information on available venues, please visit <https://www.facebook.com/WCGHealth/>

INENTING BLY ONS BESTE VERWEER TEEN COVID-19

Die Wes-Kaap het amptelik die vierde golf van COVID-19 agter die rug. Dit bly egter steeds belangrik om in hierdie tydperk soveel as moontlik beskerming te kry.

Inenting - Entstowwe is steeds ons beste verweer teen COVID-19. Dit is beskikbaar vir alle persone 12 jaar en ouer.

Versterker-inspuitings - 'n Versterker dosis verhoog u immuunstelsel en voorkom erge siekte. Dit is raadsaam om dit te bekom. Moenie op 'n telefoniese herinnerboodskap wag nie, wees pro-aktief. Besoek 'n inentingsperseel indien u die J&J entstof twee (of meer) maande gelede geneem het, of die tweede Pfizer dosis, minstens ses maande gelede.

Immuno-gekompromiteerde individue wie reeds 'n addisionele entstof dosis ontvang het, mag die volgende versterker dosisse neem:

- J&J versterker dosis - 2 maande na ontvangs van die addisionele entstof dosis, of
- Pfizer versterker dosis - 6 maande na ontvangs van die addisionele entstof dosis

UGONYO LUHLALA LUSESONA SIKHUSELO SETHU SINGCONO KWI-COVID-19

INTshona Koloni iphumile ngokusesikweni kwiliza lesine lwe-COVID-19. Masihlale sizilungiselele futhi siqinisekise ukuba sizifumanela ukhuseleko oluninzi kangangoko ngeli xesha. Ugonyo luhlala lusesona sokhuseli sethu singcono ngakwi-COVID-19 kwaye luyafumaneka kumntu wonke oneminyaka engama-12 nangaphezulu.

Ukongezelela, iidosi zoku-booster zikwafumaneka nakubantu bebefumene isitofu sokugonya se-J&J kwiinyanga ezimbini (okanye ngaphezulu) ezidlulileyo okanye idosi yabo yesibini yePfizer ubuncinci kwiinyanga ezintandathu ezidlulileyo. Awunyanzelekanga ukuba ulindele ude ufumane i-SMS ekukhunbuza ukuba uyoku-booster, ungaya kwindawo yokugonya ngaphandle kwayo. Idosi zoku -booster zomeleza amajoni omzimba wakho wona ukuba akwazi ukuhlasela ukwenzela ungaguli kakhulu, ngokoke uyacetyiswa ukuba uyozufumanela eyakho namhlanje.

Abantu abasengciphekweni yokugula naba selebefumene enye idosi yokugonya, baya kuvumeleka ekubeni bafumane idosi ye-booster yakwa-J&J kwiinyanga ezimbini emva kokufumana leyodosi okanye bangafumana idosi ye-booster yakwa-Pfizer kwiinyanga ezi-6 emva kokuba befumene idosi yabo yesibini.
