EXPENDITURE ON 2022/2023 BUDGET MEASURED BY THE TOP LEVEL SDBIP FOR THE FIRST QUARTER (5/1/3) (DIRECTOR: STRATEGY AND SOCIAL DEVELOPMENT)

Purpose of report

To submit a report to council on the progress made on the implementation of 2022/2023 approved Budget as measured in the approved Top level SDBIP.

Background

Section 52 (d) of the Municipal Finance Management Act, 56 of 2003, requires that a Mayor must, within 30 days of the end of each quarter, submit a report to the council on the implementation of the budget and the financial state of affairs of the municipality.

This report informs Council on a quarterly basis of the expenditure and performance in the Budget.

Comments:

The relevant documentation will be provided separately.

Recommendation/ Aanbeveling

That Council notes the contents of the report

Dat die Raad kennis neem van die inhoud van die verslag

This item served before an Ordinary Meeting of Council on 24 October 2022

Hierdie item het gedien voor 'n Gewone Vergadering van die Raad op 24 Oktober 2022

Eenparig Besluit / Unanimously Resolved

That Council notes the contents of the report

Dat die Raad kennis neem van die inhoud van die verslag

1. Introduction

Performance management is a process which measures the implementation of the organisation's strategy. It is also a management tool to plan, monitor, measure and review performance indicators to ensure efficiency, effectiveness and the impact of services delivery by the municipality.

At local government level performance management is institutionalized through the legislative requirements on the performance management process for Local Government. Performance management provides the mechanism to measure whether targets to meet its strategic goals, set by the organisation and its employees, are met.

2. Performance Cycles

The performance management cycle can be summarised in the following diagram and each cycle is addressed in the remainder of the recently approved Langeberg municipality:

Each of the above cycles can be explained as follows:

- Performance Planning ensures that the strategic direction of the Municipality more explicitly informs and aligns the IDP with all planning activities and resource decisions. This is the stage where Key Performance Areas and Key Performance Indicators are designed to address the IDP objectives, national policy and targets are set.
- Performance Measuring and Monitoring is an ongoing process to determine whether performance targets have been met, exceeded or not met. Projections can also be made during the year as to whether the final target and future targets will be met. It occurs during key points in a process – for example, on a quarterly and annual basis.
- Performance evaluation analyses why there is under-performance or what the factors were, that allowed satisfactory performance in a particular area. Where targets have not been met, the reasons for this must be examined and corrective action recommended. Evidence to support the status is also reviewed at this stage. An additional component is the review of the indicators to determine if they are feasible and are measuring the key areas appropriately.
- Performance Reporting entails regular reporting to management, the performance audit committee, council and the public.
- Performance review/auditing is a key element of the monitoring and evaluation process. This involves
 verifying that the measurement mechanisms are accurate and that proper procedures are followed to
 evaluate and improve performance. According to section 45, of the Systems Act, results of the performance
 measurement must be audited as part of the municipality's internal auditing process and annually by the
 Auditor-General. The Municipality have therefore established frameworks and structures to evaluate the

effectiveness of the municipality's internal performance measurement control systems. Areas of weak performance identified at year-end must be addressed during the following years planning phase.

3. Implementation of performance management – Top layer SDBIP

3.1. Preparing the Top layer SDBIP's

KPI's should be developed for Council, the office of the Municipal Manager and for each Directorate. The KPI's should:

- KPI's should be developed for the programmes / activities identified to address the Strategic Objectives as documented in the IDP. The KPI's must be aligned with the national and municipal KPA's.
- KPI's identified during the IDP and KPI's that need to be reported to key municipal stakeholders should be included in the TL SDBIP to confirm alignment.
- KPI's should be developed to address the required National Agenda Outcomes, priorities and minimum reporting requirements. The KPI's must be aligned with the Strategic Objectives, and the national and municipal KPA's.
- The municipal turnaround strategy (MTAS) should be reviewed to determine any actions to be translated into KPI's and to be included in the TL SDBIP. These KPI's must be aligned with the Strategic Objectives, and the national and municipal KPA's.
- The risk register should be reviewed to identify the risks that need to be addressed by strategic KPI's. These
 KPI's should be developed and be aligned with the Strategic Objectives, and the national and municipal
 KPA's.
- It is also proposed that each directorate consider 2 KPI's that is output focused and that will make the municipality more developmental or enhance the effectiveness of the municipality.
- Clear quarterly targets should be set and the KPI's must be assigned to a senior manager. In the instance
 where a target will not be achieved during the current financial year, the target should be included in the
 outer years.
- These targets should be set after available resources and past year performance has been considered.

3.2. Approval of Top layer SDBIP

The municipal scorecard must be submitted to the Executive Mayor within 14 days after the budget has been approved. The Executive Mayor needs to consider and approve the SDBIP within 28 days after the budget has been approved. The scorecard must be updated after the adjustment estimate has been approved and any changes to the scorecard must be submitted to Council with the respective motivation for the changes suggested, for approvals

3.3. Performance monitoring

An evaluation of the validity and sustainability of the KPI's should be done and the actual performance results of each target should be updated and evaluated on a monthly basis. In order to measure the input/output of the KPI's, the performance results and performance evidence (POE's) should be evaluated and documented.

The KPI owners should report on the results of the KPI by documenting the following information on the performance system:

- The actual result in terms of the target set.
- The output/outcome of achieving the KPI.
- The calculation of the actual performance reported. (If %)
- The reasons if the target was not achieved.
- Actions to improve the performance against the target set, if the target was not achieved.

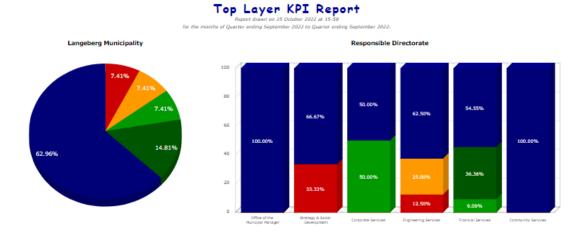

The municipal manager and his/her senior management team needs to implement the necessary systems and processes to provide the POE's for reporting and auditing.

Performance results are monitored and reviewed in terms of:

- Quarterly KPI monitoring sessions held by the Municipal Manager with all managers,
- Quarterly reports tabled before the Portfolio Committees of the Mayor,
- Quarterly reports tabled before the Executive Mayoral Committee and Council,

4. Summary of Performance against Top layer key performance indicators (KPI's)

The table below illustrates the overall actual performance for quarter 1 (July- September 2022).

				Respo	onsible Direc	torate		
		Office of the Municipal Manager	Strategy & Social Development	Corporate Services	Engineering Services	Financial Services	Community Services	[Unspecified]

SDBIP measurement criteria

4.1. Summary of preliminary and unaudited performance per strategic objective

Detailed above illustrate preliminary and unaudited Top layer SDBIP report for the first quarter (July- September 2022) which measures the overall performance per strategic objective and directorate. The performance presented is subject to change based on the audit of the actual performance outcomes achieved. The final results will be included as part of 2022-2023 Annual Performance Report (as per section 46 (1)(b) of the Municipal systems) and it will be further incorporated as part of 2022-2023 Annual report. (as per section 46 (2) of the Municipal systems)
