REGISTRATION OF SUPPLIERS OF GOODS AND SERVICES ON THE LANGEERG MUNICIPALITY DATABASE.

In terms of the Supply Chain Management Policy, the municipality must have a database of providers of goods and services.

The major purpose of the database is to give service providers and suppliers the equal opportunity to tender or provide quotations to the Langeberg Municipality. All the contractors, goods and service providers, consultant, the providers of professional services and others services providers who want to do business with the Langeberg Municipality are cordially invited to provide details of their common duties, nature of business, profile of the business etc in the services provider form.

When quotations will be requested, will only the suppliers that are registered on the database be contacted for a quotation and therefore is it important that suppliers who want to do business with the municipality be registered on the database.

SMME'S and local businesses specifically are encouraged to register on the database, because the municipality wants to promote SMME'S and local businesses.

Registration forms can be obtained from the reception/ client services at the Langeberg Municipality offices in Ashton, Bonnievale, McGregor, Montagu and Robertson, or www.langeberg.gov.za.
