

JOB VACANCY

X4 ENVIRONMENTAL MONITORS

Amstilinx (RF) Proprietary Limited invites all qualifying community members to apply for the positions of Environmental Monitors during the construction of the Excelsior Wind Energy Facility (32MW) project which is located between Swellendam and Bredasdorp.

Preference to be given to community members in the closest towns surrounding the project site namely Swellendam, Suurbraak, Buffeljagsriver, Malgas, Bredasdorp, Napier, Klipdale, Riversonderend, McGregor, Bonnievale, Ashton, Zolani, Montagu & Arniston).

Minimum Requirements - Qualification & Experience:

- Matric Certificate (Gr12) will be an advantage;
- Candidates who have previous field experience with birds and/or bats monitoring will be preferred;
- Excellent communication skills verbal and writing (English, Afrikaans & IsiXhosa);
- Must be able to work independently and with others, and interact positively with project management and landowners.

Essential Duties and Responsibilities:

- Assist with environmental monitoring scope of work on Excelsior Wind Farm;
- Conduct bird monitoring;
- Conduct surveys on foot (up to 10 km per day) in potentially adverse weather conditions and enter data;
- Search for dead or injured birds and bats on foot in amongst vegetation;
- Conduct bird observations for extended periods of time to record behavior and flight patterns; and
- Operate a camera and Global Positioning System (GPS) and record details of carcasses found, and observations made.

All applications need to be forwarded to env@biothermenergy.com accompanied by the following supporting documents, if not will be automatically disqualified: CV, cover letter, ID copy, matric certificate (Gr 12) and proof of residence. For full requirements for the position, please refer to: <http://www.biothermenergy.com/content/careers>

CLOSING DATE FOR THE APPLICATIONS: 14 September 2018, 17:00.
