The Cape Winelands District Municipality obtained an operating permit in terms of the Environment Conservation Act (Act 73 of 1989) and is in the process of developing the Worcester Regional Landfill site to serve as a regional waste disposal facility for the general waste generated across the district.

The disposal area is developed cell by cell and each cell is designed and constructed with a medium-term capacity, e.g. Cell 1 that is currently under construction has a design capacity which under current conditions, will reach capacity in approximately eight (8) years' time at which time the construction of Cell 2 must be completed. The development of further cells will be incorporated in separate addenda to this Agreement.

These Municipalities undertake to pay the applicable Charges to Cape Winelands District Municipality consisting of a Fixed Waste Disposal Cost, a variable Waste Disposal Tariff per ton of waste disposed and a Rehabilitation Contribution per ton of waste disposed.

5. LONG-TERM SERVICE LEVEL AGREEMENT

The long-term SLA is the subject of this public and other stakeholder's participation process.
